Be it enacted by the General Assembly of the State of South Carolina :

SECTION 1: Legislative findings.—The General Assembly, as an incident to the enactment of this act, finds that the facts afterwards in this section recited, exist.

(b) That the reasons which formerly necessitated the division of counties into many school districts no longer exist, and the advent of pupil transportation has eliminated the necessity of many school buildings.

(c) That in the instance of Chester County, the county itself is the proper unit to operate the public school system, and that by providing for such an operation there will be effected equality in opportunity to school children and uniformity in taxation for school purposes, which are both desirable and equitable.

(d) That the General Assembly has, therefore, determined to prescribe that the area of Chester County shall be the area of the School District of said county, and to consolidate into a single school district the several school districts of said county, to be known as "The School District of Chester County", whose area and boundaries shall be coextensive with the area and boundaries of Chester County, which shall be under the jurisdiction and government of the Board of Trustees of said district and which Board shall have

the powers conferred on it by this act and any other provisions of law and acts relating to this school district.

SECTION 2: Area of the school district of Chester County.—The General Assembly prescribes as the area for The School District of Chester County an area coextensive with the area of Chester County.

SECTION 3: School districts consolidated.—The several school districts of Chester County, as they may exist on the effective date of this enactment, shall be and are hereby consolidated into a single school district, whose area and boundaries shall be coextensive with the area and boundaries of Chester County, which school district shall be known and designated as The School District of Chester County.

SECTION 4: Trustees—duties and powers—acts ratified.—The said school district shall be under the general management of the seven persons heretofore elected and presently constituting the Chester County Board of Education as constituted under the provisions of Act No. 82 of the Acts of the General Assembly for the year 1949, approved March 23, 1949, and shall have and succeed to the powers and duties as set forth in the said act and all acts amendatory thereof and all acts heretofore performed by the Chester County Board of Education as trustees of the consolidated district, be and the same is hereby ratified and confirmed.

SECTION 5: School properties—finances.—Title to all school property in Chester County which is now or has been heretofore used for school purposes, as well as that which may be hereafter acquired, shall vest in The School District of Chester County and the said district shall be wholly responsible for the payment of any present or future school indebtedness. The Chester County School District shall in all cases be the unit for financing and receiving all local, state and federal funds for educational purposes.

SECTION 6: Repeal.—All acts or parts of acts inconsistent with this act are repealed.

SECTION 7: Time effective.—This act shall take effect upon its approval by the Governor.

(4) This act shall be so interpreted and construed as to effect its general purpose to make uniform the law of those states which enact it.

(5) This act shall not be construed so as to impair the obligations of any contract existing when the act goes into effect, nor to affect any action or proceedings begun or right accrued before this act takes effect.

SECTION 5: Cases not provided for.—In any case not provided for in this act the rules of law and equity, including the law merchant, shall govern.

SECTION 6: Partnership defined.—(1) A partnership is an association of two or more persons to carry on as co-owners a business for profit.

(2) But any association formed under any other statute of this state, or any statute adopted by authority, other than the authority of this state, is not a partnership under this act, unless such association would have been a partnership in this state prior to the adoption of this act; but this act shall apply to limited partnerships except in so far as the statutes relating to such partnerships are inconsistent herewith.

SECTION 7: Determination of existence of partnership.—In determining whether a partnership exists, these rules shall apply:

(1) Except as provided by section 16 persons who are not partners as to each other are not partners as to third persons.

(2) Joint tenancy, tenancy in common, tenancy by the entireties, joint property, common property, or part ownership does not of itself establish a partnership, whether such co-owners do or do not share any profit made by the use of the property.

(3) The sharing of gross returns does not of itself establish a partnership, whether or not the persons sharing them have a joint or common right or interest in any property from which the returns are derived.

(4) The receipt by a person of a share of the profits of a business is prima facie evidence that he is a partner in the business, but no such inference shall be drawn if such profits were received in payment:

(a) As a debt by installments or otherwise,

- (b) As wages of an employee or rent to a landlord,

(4) A conveyance to a partnership in the partnership name, though without words of inheritance, passes the entire estate of the grantor unless a contrary intent appears.

SECTION 9: Partner's acts and agency.—(1) Every partner is an agent of the partnership for the purpose of its business, and the act of every partner, including the execution in the partnership name of any instrument, for apparently carrying on in the usual way the business of the partnership of which he is a member binds the partnership, unless the partner so acting has in fact no authority to act for the partnership in the particular matter, and the person with whom he is dealing has knowledge of the fact that he has no such authority.

(2) An act of a partner which is not apparently for the carrying on of the business of the partnership in the usual way does not bind the partnership unless authorized by the other partners.

(3) Unless authorized by the other partners or unless they have abandoned the business, one or more but less than all the partners have no authority to:

- (a) Assign the partnership property in trust for creditors or on the assignee's promise to pay the debts of the partnership,
- (b) Dispose of the good-will of the business,

SECTION 10: Conveyances of real property.—(1) Where title to real property is in the partnership name, any partner may convey title to such property by a conveyance executed in the partnership name; but the partnership may recover such property unless the partner's act binds the partnership under the provisions of paragraph (1) of section 9, or unless such property has been conveyed by the grantee or a person claiming through such grantee to a holder for value without knowledge that the partner, in making the conveyance, has exceeded his authority.

(2) Where title to real property is in the name of the partnership, a conveyance executed by a partner, in his own name, passes the equitable interest of the partnership, provided the act is one within the authority of the partner under the provisions of paragraph (1) of Section 9.

(3) Where title to real property is in the name of one or more but not all the partners, and the record does not disclose the right of the partnership, the partners in whose name the title stands may convey title to such property, but the partnership may recover such property if the partners' act does not bind the partnership under the provisions of paragraph (1) of Section 9, unless the purchaser or his assignee, is a holder for value, without knowledge.

(4) Where the title to real property is in the name of one or more or all the partners, or in a third person in trust for the partnership, a conveyance executed by a partner in the partnership name, or in his own name, passes the equitable interest of the partnership, provided the act is one within the authority of the partner under the provisions of paragraph (1) of Section 9.

(5) Where the title to real property is in the names of all the partners a conveyance executed by all the partners passes all their rights in such property.

SECTION 11: Admission or representation by partner—evidence.—An admission or representation made by any partner con-

cerning partnership affairs within the scope of his authority as conferred by this act is evidence against the partnership.

SECTION 12: Notice to or knowledge of partnership.—Notice to any partner or any matter relating to partnership affairs, and the knowledge of the partner acting in the particular matter, acquired while a partner or then present to his mind, and the knowledge of any other partner who reasonably could and should have communicated it to the acting partner, operate as notice to or knowledge of the partnership, except in the case of a fraud on the partnership committed by or with the consent of that partner.

SECTION 13: Liability for wrongful act or omission of partner.—Whereby any wrongful act or omission of any partner acting in the ordinary course of the business of the partnership or with the authority of his co-partners, loss or injury is caused to any person, not being a partner in the partnership, or any penalty is incurred, the partnership is liable therefor to the same extent as the partner so acting or omitting to act.

SECTION 14: Losses make good.—The partnership is bound to make good the loss:

(a) Where one partner acting within the scope of his apparent authority receives money or property of a third person and misapplies it; and

(b) Where the partnership in the course of its business receives money or property of a third person and the money or property so received is misapplied by any partner while it is in the custody of the partnership.

SECTION 15: Liability of partners.—All partners are liable;

(a) Jointly and severally for everything chargeable to the partnership under sections 13 and 14.

(b) Jointly for all other debts and obligations of the partnership; but any partner may enter into a separate obligation to perform a partnership contract.

SECTION 16: Liability represent or consent to be represented as partner—act as agent of person consenting to such representation.—(1) When a person, by words spoken or written or by conduct, represents himself, or consents to another representing him to any one, as a partner in an existing partnership or with one or more

persons not actual partners, he is liable to any such person to whom such representation has been made, who has, on the faith of such representation, given credit to the actual or apparent partnership, and if he has made such representation or consented to its being made in a public manner he is liable to such person, whether the representation has or has not been made or communicated to such person so giving credit by or with the knowledge of the apparent partner making the representation or consenting to its being made.

(a) When a partnership liability results, he is liable as though he were an actual member of the partnership.

(b) When no partnership liability results, he is liable jointly with the other persons, if any, so consenting to the contract or representation as to incur liability, otherwise separately.

(2) When a person has been thus represented to be a partner in an existing partnership, or with one or more persons not actual partners, he is an agent of the persons consenting to such representation to bind them to the same extent and in the same manner as though he were a partner in fact, with respect to persons who rely upon the representation. Where all the members of the existing partnership consent to the representation, a partnership act or obligation results; but in all other cases it is the joint act or obligation of the person acting and the persons consenting to the representation.

SECTION 17: Liability of partner admitted into existing partnership.—A person admitted as a partner into an existing partnership is liable for all the obligations of the partnership arising before his admission as though he had been a partner when such obligations were incurred, except that this liability shall be satisfied only out of partnership property.

SECTION 18: Rules determine rights and duties of partners as to partnership.—The rights and duties of the partners in relation to the partnership shall be determined, subject to any agreement between them, by the following rules:

(a) Each partner shall be repaid his contributions, whether by way of capital or advances to the partnership property and share equally in the profits and surplus remaining after all liabilities, including those to partners, are satisfied; and must contribute toward the losses, whether of capital or otherwise, sustained by the partnership according to his share in the profits.

(b) The partnership must indemnify every partner in respect of payments made and personal liabilities reasonably incurred by him in the ordinary and proper conduct of its business, or for the preservation of its business or property.

(c) A partner, who in aid of the partnership makes any payment or advance beyond the amount of capital which he agreed to contribute, shall be paid interest from the date of the payment or advance.

(d) A partner shall receive interest on the capital contributed by him only from the date when repayment should be made.

(e) All partners have equal rights in the management and conduct of the partnership business.

(f) No partner is entitled to remuneration for acting in the partnership business, except that a surviving partner is entitled to reasonable compensation for his services in winding up the partnership affairs.

(g) No person can become a member of a partnership without the consent of all the partners.

(h) Any difference arising as to ordinary matters connected with the partnership business may be decided by a majority of the partners; but no act in contravention of any agreement between the partners may be done rightfully without the consent of all the partners.

SECTION 19: Books.—The partnership books shall be kept, subject to any agreement between the partners, at the principal place of business of the partnership, and every partner shall at all times have access to and may inspect and copy any of them,

SECTION 20: Information.—Partners shall render on demand true and full information of all things affecting the partnership to any partner or the legal representative of any deceased partner or partner under legal disability.

SECTION 21: Partner account for benefits and profits.—(1) Every partner must account to the partnership for any benefit, and hold as trustee for it any profits derived by him without the consent of the other partners from any transaction connected with the formation, conduct, or liquidation of the partnership or from any use by him of its property.

(2) This section applies also to the representatives of a deceased partner engaged in the liquidation of the affairs of the partnership as the personal representatives of the last surviving partner.

SECTION 22: Accounting.—Any partner shall have the right to a formal account as to partnership affairs:

- (a) If he is wrongfully excluded from the partnership business or possession of its property by his co-partners,
- (b) If the right exists under the terms of any agreement,
- (c) As provided by Section 21,
- (d) Whenever other circumstances render it just and reasonable.

SECTION 23: Continuation beyond term or undertaking.—(1) When a partnership for a fixed term or particular undertaking is continued after the termination of such term or particular undertaking without any express agreement, the rights and duties of the partners remain the same as they were at such termination, so far as is consistent with a partnership at will.

(2) A continuation of the business by the partners or such of them as habitually acted therein during the term, without any settlement or liquidation of the partnership affairs, is prima facie evidence of a continuation of the partnership.

SECTION 24: Property rights of partner.—The property rights of a partner are (1) his rights in specific partnership property, (2) his interest in the partnership, and (3) his right to participate in the management.

SECTION 25: Partner is co-owner of partnership property—possession — assignment — attachment — execution — homestead—death.—(1) A partner is co-owner with his partners of specific partnership property holding as a tenant in partnership.

(2) The incidents of his tenancy are such that:

(a) A partner, subject to the provisions of this Act and to any agreement between the partners, has an equal right with his partners to possess specific partnership property for partnership purposes; but he has no right to possess such property for any other purpose without the consent of his partners.

(b) A partner's right in specific partnership property is not assignable except in connection with the assignment of rights of all the partners in the same property.

(c) A partner's right in specific partnership property is not subject to attachment or execution, except on a claim against the partnership. When partnership property is attached for a partnership debt the partners, or any of them, or the representatives of a deceased partner, cannot claim any right under the homestead or exemption laws.

(d) On the death of a partner his right in specific partnership property vest in the surviving partner or partners, except where the deceased was the last surviving partner, when his right in such property vests in his legal representative. Such surviving partner or partners, or the legal representative of the last surviving partner, has no right to possess the partnership property for any but a partnership purpose.

(e) A partner's right in specific partnership property is not subject to dower, curtesy, or allowances to widows, heirs, or next of kin.

SECTION 26: Partner's interest is personal property.—A partner's interest in the partnership is his share of the profits and surplus, and the same is personal property.

SECTION 27: Rights of assignee of partner's interest.—(1) A conveyance by a partner of his interest in the partnership does not of itself dissolve the partnership, nor, as against the other partners in the absence of agreement, entitle the assignee, during the continuance of the partnership, to interfere in the management or administration of the partnership business or affairs, or to require any information or account of partnership transactions, or to inspect the partnership books; but it merely entitles the assignee to receive in accordance with his contract the profits to which the assigning partner would otherwise be entitled.

(2) In case of a dissolution of the partnership, the assignee is entitled to receive his assignor's interest and may require an account from the date only of the last account agreed to by all partners.

SECTION 28: Partner judgment debtor—rights of judgment creditor.—(1) On due application to a competent court by any judgment creditor of a partner, the court which entered the judgment, order, or decree, or any other court, may charge the interest of the debtor partner with payment of the unsatisfied amount of such judgment debt with interest thereon; and may then or later appoint a receiver of his share of the profits, and of any other money due or

to fall due to him in respect of the partnership, and make all other orders, directions, accounts and inquiries which the debtor partner might have made, or which the circumstances of the case may require.

(2) The interest charged may be redeemed at any time before foreclosure, or in case of a sale being directed by the court may be purchased without thereby causing a dissolution:

(a) With separate property, by any one or more of the partners, or

(b) With partnership property, by any one or more of the partners with the consent of all the partners whose interests are not so charged or sold.

(3) Nothing in this Act shall be held to deprive a partner of his right, if any, under the exemption laws, as regards his interest in the partnership.

SECTION 29: Dissolution defined.—The dissolution of a partnership is the change in the relation of the partners caused by any partner ceasing to be associated in the carrying on as distinguished from the winding up of the business.

SECTION 30: Partnership on dissolution continues until affairs completed.—On dissolution the partnership is not terminated, but continues until the winding up of partnership affairs is completed.

SECTION 31: Causes of dissolution.—Dissolution is caused:

(1) Without violation of the agreement between the partners,

(a) By the termination of the definite term or particular undertaking specified in the agreement,

(b) By the express will of any partner when no definite term or particular undertaking is specified.

(c) By the express will of all the partners who have not assigned their interests or suffered them to be charged for their separate debts, either before or after the termination of any specified term or particular undertaking.

(d) By the expulsion of any partner from the business bona fide in accordance with such a power conferred by the agreement between the partners;

(2) In contravention of the agreement between the partners, where the circumstances do not permit a dissolution under any other provision of this section, by the express will of any partner at any time:

(3) By any event which makes it unlawful for the business of the partnership to be carried on or for the members to carry it on in partnership;

(4) By the death of any partner;

(5) By the bankruptcy of any partner or the partnership;

(6) By decree of court under section 32.

SECTION 32: Conditions decree dissolution.—(1) On application by or for a partner the court shall decree a dissolution whenever:

(a) A partner has been declared a lunatic in any judicial proceeding or is shown to be of unsound mind,

(b) A partner becomes in any other way incapable of performing his part of the partnership contract,

(c) A partner has been guilty of such conduct as tends to affect prejudicially the carrying on of the business.

(d) A partner willfully or persistently commits a breach of the partnership agreement, or otherwise so conducts himself in matters relating to the partnership business that it is not reasonably practicable to carry on the business in partnership with him,

(e) The business of the partnership can only be carried on at a loss,

(f) Other circumstances render a dissolution equitable.

(2) On the application of the purchaser of a partner's interest under Sections 27 and 28:

(a) After the termination of the specified term or particular undertaking.

(b) At any time if the partnership was a partnership at will when the interest was assigned or when the charging order was issued.

SECTION 33: Dissolution restricts partner's authority to act.—Except so far as may be necessary to wind up partnership affairs or to complete transactions begun but not then finished, dissolution terminates all authority of any partner to act for the partnership,

(1) With respect to the partners,

(a) When the dissolution is not by the act, bankruptcy or death of a partner; or

(b) When the dissolution is by such act, bankruptcy or death of a partner, in cases where Section 34 so requires.

(2) With respect to persons not partners, as declared in Section 35.

SECTION 34: Liability of partner where dissolution caused by act, death or bankruptcy of partner.—Where the dissolution is caused by the act, death or bankruptcy of a partner, each partner is liable to his co-partners for his share of any liability created by any partner acting for the partnership as if the partnership had not been dissolved unless

(a) The dissolution being by act of any partner, the partner acting for the partnership had knowledge of the dissolution, or

(b) The dissolution being by the death or bankruptcy of a partner, the partner acting for the partnership had knowledge or notice of the death or bankruptcy.

SECTION 35: Liability of partner and partnership after dissolution.—(1) After dissolution a partner can bind the partnership except as provided in Paragraph (3).

(a) By any act appropriate for winding up partnership affairs or completing transactions unfinished at dissolution;

(b) By any transaction which would bind the partnership if dissolution had not taken place, provided the other party to the transaction

(I) Had credit to the partnership prior to dissolution and had no knowledge or notice of the dissolution; or

(II) Though he had not so extended credit, had nevertheless known of the partnership prior to dissolution, and, having no knowledge or notice of dissolution, the fact of dissolution had not been advertised in a newspaper of general circulation in the place (or in each place if more than one) at which the partnership business was regularly carried on.

(2) The liability of a partner under Paragraph (b) shall be satisfied out of partnership assets alone when such partner had been prior to dissolution:

(a) Unknown as a partner to the person with whom the contract is made; and

(b) So far unknown and inactive in partnership affairs that the business reputation of the partnership could not be said to have been in any degree due to his connection with it.

(3) The partnership is in no case bound by any act of a partner after dissolution

(a) Where the partnership is dissolved because it is unlawful to carry on the business, unless the act is appropriate for winding up partnership affairs; or

(b) Where the partner has become bankrupt; or

(c) Where the partner has no authority to wind up partnership affairs; except by a transaction with one who

(I) Had an extended credit to the partnership prior to dissolution and had no knowledge or notice of his want of authority; or

(II) Had not extended credit to the partnership prior to dissolution, and, having no knowledge or notice of his want of authority, the fact of his want of authority has not been advertised in the manner provided for advertising the fact of dissolution in Paragraph (1bII).

(4) Nothing in this section shall affect the liability under Section 16 of any person who after dissolution represents himself or consents to another representing him as partner in a partnership engaged in carrying on business.

SECTION 36: Discharge of liability of partner upon dissolution.

—(1) The dissolution of the partnership does not of itself discharge the existing liability of any partner.

(2) A partner is discharged from any existing liability upon dissolution of the partnership by an agreement to that effect between himself, the partnership creditor and the person or partnership continuing the business; and such agreement may be inferred from the course of dealing between the creditor having knowledge of the dissolution and the person or partnership continuing the business.

(3) Where a person agrees to assume the existing obligations of a dissolved partnership, the partners whose obligations have been assumed shall be discharged from any liability to any creditor of the partnership who, knowing of the agreement, consents to a material alteration in the nature or time of payment of such obligations.

(4) The individual property of a deceased partner shall be liable for all obligations of the partnership incurred while he was a partner but subject to the prior payment of his separate debts.

SECTION 37: Persons wind up partnership affairs upon dissolution.—Unless otherwise agreed the partners who have not wrongfully dissolved the partnership or the legal representative of the last

surviving partner, not bankrupt, has the right to wind up the partnership affairs; PROVIDED, HOWEVER, that any partner, his legal representative or his assignee, upon cause shown, may obtain winding up by the court.

SECTION 38: Rights of partner as against his co-partner upon dissolution.—(1) When dissolution is caused in any way, except in contravention of the partnership agreement, each partner, as against his co-partner and all persons claiming through them in respect of their interests in the partnership, unless otherwise agreed, may have the partnership property applied to discharge its liabilities, and the surplus applied to pay in cash the net amount owing to the respective partners. But if dissolution is caused by expulsion of a partner, bona fide under the partnership agreement and if the expelled partner is discharged from all partnership liabilities, either by payment or agreement under section 36 (2), he shall receive in cash only the net amount due him from the partnership.

(2) When dissolution is caused in contravention of the partnership agreement the rights of the partners shall be as follows:

(a) Each partner who has not caused dissolution wrongfully shall have,

(I) All the rights specified in paragraph (1) of this section, and

(II) The right, as against each partner who has caused the dissolution wrongfully, to damages for breach of the agreement.

(b) The partners who have not caused the dissolution wrongfully, if they all desire to continue the business in the same name, either by themselves or jointly with others, may do so, during the agreed term for the partnership and for that purpose may possess the partnership property, provided they secure the payment by bond approved by the court, or pay to any partner who has caused the dissolution wrongfully, the value of his interest in the partnership at the dissolution, less any damages recoverable under clause (2aII) of this section, and in like manner indemnify him against all present or future partnership liabilities.

(c) A partner who has caused the dissolution wrongfully shall have:

(I) If the business is not continued under the provisions of paragraph (2b) all the rights of a partner under paragraph (1), subject to clause (2aII), of this section,

(II) If the business is continued under paragraph (2b) of this section the right as against his co-partners and all claiming through them in respect of their interests in the partnership, to have the value of his interest in the partnership, less any damages caused to his co-partners by the dissolution, ascertained and paid to him in cash, or the payment secured by bond approved by the court, and to be released from all existing liabilities of the partnership; but in ascertaining the value of the partner's interest the value of the good-will of the business shall not be considered.

SECTION 39: Rights of partner when partnership agreement rescinded for fraud or misrepresentation of partner.—Where a partnership contract is rescinded on the ground of the fraud or misrepresentation of one of the parties thereto, the party entitled to rescind is, without prejudice to any other right, entitled.

(a) To a lien on, or right of retention of, the surplus of the partnership property after satisfying the partnership liabilities to third persons for any sum of money paid by him for the purchase of an interest in the partnership and for any capital or advances contributed by him; and

(b) To stand, after all liabilities to third persons have been satisfied, in the place of the creditors of the partnership for any payments made by him in respect of the partnership liabilities; and

(c) To be indemnified by the person guilty of the fraud or making the representation against all debts and liabilities of the partnership.

SECTION 40: Settlement of accounts between partners after dissolution—contributions—order of paying debts—rank of claims against bankrupt or deceased insolvent partner.—In settling accounts between the partners after dissolution, the following rules shall be observed, subject to any agreement to the contrary:

(a) The assets of the partnership are:

(I) The partnership property,

(II) The contributions of the partners necessary for the payment of all the liabilities specified in clause (b) of this paragraph.

(b) The liabilities of the partnership shall rank in order of payment, as follows:

(I) Those owing to creditors other than partners,

The levies ---- (one for school purposes and one for debt service) determined by the auditor in conformity with the foregoing formula for each new school district established as aforesaid shall be in lieu of and not in addition to the levies for such purposes in presently organized school districts embraced in the new district area; Provided, however, that all present levies for school purposes which are “county-wide” in nature shall be retained and not disturbed. The termination of an appointed trustee's commission for any cause, after June 30, 1950, shall create no vacancy on the board of trustees of any newly established district contemplated by this act unless such termination occurs between June 30, 1950, and January 1, 1951, and then only if there be less than seven members remaining on such board of trustees. In such a contingency the County Board of Education may, if it so desires, declare a vacancy and fill same but their appointee's commission shall expire on December 31, 1950.

In addition to the foregoing there shall be elected in the general election to be held in November, 1950, seven additional trustees — (hereinafter designated as "elected" trustees) — for each new district which may be established as aforesaid, four of whom shall serve for a term of two years beginning January 1, 1951, and three of whom shall serve for a term of four years beginning likewise on said date. The seven elected shall upon being commissioned meet and choose by lot— (or other method satisfactory to all)— the four whose terms shall be for two years as aforesaid. Thereafter successors to the seven original elected trustees shall be elected as aforesaid and commissioned for a full term of four years, a term always beginning on the first day of January and expiring on the last day of December. Any vacancy for any cause occurring among the elected trustees, other than by expiration of a commission, may be filled at any time by the County Board of Education until the next general election in which general election a successor shall be elected for the remainder of the unexpired term, or for a full term as the case may be. If any political party provides a party primary nomination of a candidate for membership on the board of trustees of any of the six new districts contemplated by this act, no person otherwise qualified for such nomination shall be required to pay any assessment or other fee as a condition to such candidacy. No member elected to said boards shall be employed in the county schools as a teacher or otherwise and acceptance of such employment shall automatically operate as a resignation as trustee.

Nothing in this section contained shall be construed as applying in any way to (Columbia) School District No. 1 or to Olympia School District No. 4-A, these two districts being specifically exempted herefrom.

SECTION 6-A: Vote on additional tax levy, Columbia school district No. 1, Richland County.—At the same time as the election provided for in Section 1 of this act there shall be submitted to the qualified electors of Columbia School District No. 1 of Richland County as presently constituted the question of whether or not an annual levy of four (4) mills shall be levied in addition to that already levied on all the taxable property in Columbia School District No. 1 for current operational expenses for schools.

The election herein provided for shall be ordered and held by the Richland County Commissioners of election for state and county who shall conduct the same in conformity with all applicable rules of law in force for general elections, including the receipt of returns, canvass of votes and declaration of results. The Commissioner shall give public notice of such election at least two weeks prior thereto by publication thereof in a daily morning and daily evening newspaper published and generally circulated in said county; likewise one other insertion in such morning newspaper on the day of said election and in the evening newspaper on the day preceding same. They shall provide printed ballots therefor, which ballots shall be in form substantially as follows:

So help you God." After which the president of the court shall administer to the recorder or judge advocate the following oath: "Do you, A. The consolidated school district shall be known as Greer School District, of Greenville and Spartanburg Counties, the State of South Carolina, and shall be a body politic and corporate, and whose Board of Trustees shall have all the powers and liabilities now vested by law in the Boards of Trustees of the several school districts of the State, such powers and liabilities as may be granted or imposed upon them by the provisions of this Act, and such further powers and liabilities as may from time to time be conferred upon them by the General Assembly.

SECTION 2: Property—liabilities.—Upon the effective date of this Act, all property, real and personal, and all assets of the two school districts forming the consolidated school district shall vest in the consolidated school under the name of Greer School District, of Greenville and Spartanburg Counties, the State of South Carolina, and said Greer School District, as thus consolidated, shall assume all liabilities of the two school districts thus consolidated.

SECTION 3: Trustees — election — terms — vacancy.—The five-member Board of Trustees of Greer School District No. 9-H of Greenville County and No. 79 of Spartanburg County shall constitute the five-member Board of Trustees of Greer School District, consolidated under the provisions of Section 1 of this Act, and shall continue to hold office until their successors have been duly elected

and qualified, except that the terms of the present Trustees are extended from April 15th (on which date their present terms expire) until June 15th of the year in which their respective terms expire. On the second Tuesday in June of each year, an election shall be held for the purpose of electing a successor to the Trustee whose term expires on June 15th in that year, who, upon his election and qualification shall hold office for a term of five years and until his successor shall have been duly elected and qualified. Any vacancy occurring in the Board by reason of death, disqualification or otherwise shall be filled by appointment on the part of the remaining members of the Board for the period of the unexpired term in respect of which such vacancy occurred. Said election shall be held by the Trustees, who shall cause a Notice of Election to be published at least ten days prior thereto in a newspaper of general circulation in said school district, in which the several voting places and the time of the holding of the election shall be given. The said election shall be conducted at such voting places in said school district as are established by law for the conduct of general elections. It has, therefore, determined to make it possible that either or both of Ansel School District, of Greenville County, and Pelham School District of Greenville and Spartanburg Counties, may consolidate with Greer School District, as it is constituted by the provisions of Section 1 of this Act.

(2) The General Assembly, therefore, directs the County Board of Education of Greenville County to conduct an election in Ansel School District, of Greenville County, to determine this question. It further directs the County Boards of Education of Greenville and Spartanburg Counties to conduct an election in Pelham School District, of Greenville and Spartanburg Counties, to determine this question. Notice of said election shall be given by causing notices to be published in papers of general circulation in said school districts not less than ten (10) days prior to the occasion of holding said election. The said election shall be conducted at such voting places in said school districts as are established by law for the conduct of general elections. At such elections, only those persons qualified to vote under the Constitution and laws of South Carolina shall be permitted to vote. The polls shall be opened at 8 o'clock in the forenoon and shall remain continuously open until 4 o'clock in the afternoon, whereupon they shall be closed. The County Boards of Education shall appoint the managers of said election or make provisions for their appointment. Upon the closing of the polls, the managers shall make their returns to said County Boards of Education, which shall canvass said returns and declare the results thereof. NO

(INSTRUCTIONS TO VOTERS: PERSONS FAVORING THE CONSOLIDATION SHALL DEPOSIT A BALLOT WITH THE WORD, "NO", STRICKEN THEREFROM; PERSONS OPPOSING THE CONSOLIDATION SHALL DEPOSIT A BALLOT WITH THE WORD, "YES", STRICKEN THEREFROM)."

Greenville and Spartanburg Counties, and said school district or school districts shall be consolidated with Greer School District, as it is constituted by the provisions of Section 1 of this Act under the name of Greer School District of Greenville and Spartanburg Counties. Copies of such resolution shall be kept in the permanent files of the County Boards of Education of said Counties, and certified copies thereof filed in the offices of the Clerks of Court of said counties.

(4) Should any further consolidation with Greer School District, as it is constituted by the provisions of Section 1 of this Act, be effected pursuant to this Section, then the school district as thus consolidated shall acquire all property, real and personal, and all assets of the several school districts forming the consolidated school district, and such district as thus consolidated shall assume all liabilities of the school districts thus consolidated.

The said board of trustees may establish and promulgate reasonable rules and regulations for the distribution, use and protection of said books, and may charge and collect adequate rental fees for the use of the books and reasonable penalties for damages to or destruction of said books or for the loss thereof, which said rules shall have full legal force and effect. In order to carry out the provisions of this section the said board of trustees is hereby authorized and empowered to negotiate and execute contracts with publishers or other agencies for the rentals or purchases of necessary textbooks, from time to time as needed, in the discretion of the board, and to execute any necessary notes or evidence of debt as security for any indebtedness incurred hereunder for said rentals or purchases, with interest not exceeding four per centum (4%) per annum, provided said indebtedness be paid from the rental fees of

charges collected for the use of said books by the pupils and that no such contract of indebtedness extend longer than three years.

SECTION 7: Nonresident tuition fees.—The said Greer School District is also hereby authorized and empowered to charge tuition fees and capital outlay costs, to be determined and fixed by the board of trustees, for any pupils residing outside the district and attending school within the district.

The State Board of Health is authorized, empowered and directed within ninety (90) days from the effective date of this Act to establish, determine, fix and promulgate rules and regulations containing all necessary definitions, conditions, standards and classifications of the type, kind, quality, conditions of production, sanitary conditions and other reasonable requirements that must be complied with before milk or cream is shipped, transported, carried or brought into this State. In order to protect the health of the people of South Carolina by guaranteeing a pure supply of milk, the said rules and regulations shall prohibit

the importation into this State for human consumption as fluid milk any grade of milk without being properly graded and labeled according to the rules and regulations of the South Carolina State Board of Health as recognized and established by the United States Public Health Service and all importers of fluid milk shall submit complete proof that the milk so imported is so graded and labeled. Nothing herein contained shall prohibit the State Health Officer from securing from the United States Public Health Service or any state agency charged with the duty of inspecting dairy products evidence as to the grade and purity of fluid milk or cream, but this information shall not relieve the State Health Officer of this State of the duty of determining whether or not any permit or authority authorized to be issued under this Act should be issued. After the permit herein provided is obtained the shipper holding such permit may continue to ship fluid milk or cream into this State for fluid distribution during the period allowed by the permit; Provided, that the State Health Officer shall be given advance notice of each shipment including the amount to be shipped, date of proposed shipment, the grade of milk or cream to be shipped, the person or firm to whom the milk or cream is to be shipped, however, bottled or packaged milk delivered into the State by the out-of-state shipper, on established routes shall only be required to file reports with the State Health Officer on a monthly basis, or as often as may be deemed necessary by the State Health Officer in lieu of the requirements as to the advance notice; and the State Health Officer may prescribe the form and method of such advance notice. The State Health Officer is authorized to temporarily suspend, upon twenty-four (24) hours' notice, to a permit holder, any permit issued under authority of this Section if it is found by him that any of the conditions of the permit or any of the rules, regulations and laws have been violated. The holder of a permit so suspended shall be privileged at any time to apply for the reinstatement of such permit, and the State Health Officer shall, immediately after prompt hearing and such other examinations or inspections as he deems proper, reinstate such permit if it is found that adequate measures have been taken to comply with and maintain the conditions of the permit, as originally issued or as amended. Any permit issued by the State Health Officer under the authority of this Section may be revoked upon the violation by the holder of the permit of any of the terms, conditions, rules and regulations issued and promulgated by authority of this Section. All permits issued under the authority of this Section shall become null and void after December 31st of each year.

In order that a sufficient supply of milk or cream shall always be available for the inhabitants of the State, the State Health Officer may issue to approved permit holders, or to non-permit holders, temporary emergency permits for limited periods or limited quantities of milk or cream and may restrict such permits to a limited area in accordance with such regulations as the State Board of Health may prescribe for each temporary permit.

Said permits shall be issued for a period of one (1) month, with proper authority to renew said permit from month to month. The holder of a permit so suspended shall be privileged at any time to apply for the reinstatement of such permit, and the State Health Officer shall, immediately after prompt hearing, reinstate such permit if it is found that adequate measures have been taken to comply with and maintain the conditions of the permit as originally issued, or as amended. The permits issued hereunder may be revoked after due notice and an opportunity for hearing by the State Health Officer upon a finding at such hearing of any violation of any of the conditions, terms or requirements established and promulgated by the State Board of Health or any of the laws of the state governing milk or cream.

It shall be the duty of the State Health Officer to issue and enforce a written or printed "Stop sale, use or removal" order to the owner or custodian of any quantity of milk or cream imported, transported, or brought into this state and to hold the same at a designated place,

when the State Health Officer finds that said milk or cream does not meet the requirements of the provisions of this act or the rules and regulations promulgated thereunder, until the law has been complied with and said milk or cream is released in writing by the State Health Officer, or said violation has been otherwise legally disposed of by written authority or by written order by the State Health Officer, directing the owner or custodian to remove the milk or cream from the state. The State Health Officer shall release the milk or cream so withdrawn from sale when the requirements of the provisions of this act and the rules and regulations promulgated thereunder have been complied with and upon payment by the out-of-state shipper of all costs and expenses incurred in connection with the withdrawal. All permits issued under the authority of this section shall become null and void after December 31st of each year.

Further to enforce this act every such person, firm, association or corporation importing, transporting into, receiving, or causing to be brought into this state fluid milk or cream for sale for fluid distribution shall, when deemed necessary, by the State Health Officer, furnish to the State Health Officer upon forms to be furnished by him, a detailed statement of the quantities, grades, or classifications of milk purchased and brought into the state in the previous month and the grade, classification, and manner in which such milk was distributed or sold. Such reports shall include all milk purchased from out-of-state producers or shippers, and/or purchased, sold or transferred between plants, distributor affiliates and subsidiaries; and the State Health Officer shall have the power to require such reports as will enable him to determine the quantities of milk purchased and the grade or classification under which it was purchased, and it shall be unlawful for any one of said persons, firms or corporations to sell or distribute any milk in a grade or classification higher than that in which it was purchased, except upon written permission by the State Health Officer for lim-

SECTION 6: Penalties.—Any person, firm, association, or corporation found guilty by a competent court of violation of the provisions of this Act or of any of the rules of the State Board of Health promulgated pursuant hereto, shall be subject to a fine of not less than \$10.00 nor more than \$100.00 or imprisonment not exceeding 30 days for the first offense; and for any subsequent offense shall be subject to a fine or imprisonment or both, in the discretion of the court.

Vacancies on the state committee, however occurring, shall be filled by the respective county committees. The members of the state committee shall continue in office for two years from the time of their election, or until their successors have been elected. The state committee shall nominate presidential electors, and any vacancy in the state ticket of electors, or in the national committee of a party, however occurring, shall be filled by the state committee; all by a majority of the whole committee.

SECTION 6-H: State convention—time meet—delegates—special sessions—officers.—The state convention shall meet at Columbia every general election year on the third Wednesday in April at eleven A.M. The convention shall be composed of delegates elected by the county conventions, each county to be entitled to as many delegates as double the number of its members in the General Assembly. When the state convention assembles, it shall be called to order by the chairman of the state committee. A temporary president shall be nominated and elected by the convention, and after its organization the convention shall proceed immediately to the election of permanent officers and to the transaction of business. When the business has concluded, it shall adjourn *sine die*, or may recess. *Provided*, that the State Chairman shall have power to recall State Convention into special session at any time as he deems wise.

The officers of the state convention shall be a president, vice-president, two secretaries, and a treasurer. Each county delegation to a state convention shall have power to fill any vacancies therein. Any county failing or refusing to organize under the provisions of this Act shall not have representation in the state convention.

SECTION 6-I: County committee—officers—fill vacancy in office of county chairman—term—name polling places, managers and clerks.—The clubs in each county shall be held together and operate under the control of a county committee, which shall consist of one member from each club, to be elected by respective clubs. The

committee, when elected, shall appoint its own officers (except the chairman, who shall be elected by the county convention), who shall not necessarily be members of said committee, but a vacancy in the membership of the committee shall be filled by the club through the loss of whose member by death, resignation or otherwise the vacancy occurs; *provided*, that in case the office of the county chairman shall become vacant by death, resignation or otherwise, the committee shall have power to fill the vacancy by electing a chairman to serve until the organization of the next regular county convention; and *provided, further*, that any officer of the county committee who is not a member of the committee shall not be entitled to vote on any question, except the chairman and then only in case of a tie vote. The tenure of office of the committee shall be until the first Monday in April in each general election year.

The county committee shall meet on or before the second Monday in June of each general election year and designate a polling place for each club in its own club district and appoint the managers for the primaries. Three managers shall be appointed for each voting place and a clerk shall also be appointed for such voting places as the various county committees may determine. The names of all managers and clerks shall be published in one or more county newspapers at least two weeks before the election. *Provided*, however, that three additional managers may be appointed for any polling place at which seven hundred and fifty or more registered electors are entitled to vote.

SECTION 6-J: Convention nomination of candidates—time conventions not nominating candidates in primary meet—certification of nominees.—In the event that a party shall nominate candidates by conventions, the state convention shall nominate the party's candidates for Governor, Lieutenant Governor, and all other statewide officers, and United States Senators, and for Members of Congress and Circuit Solicitors, and the county conventions shall nominate the party's candidates for all county offices. No conventions shall make nominations for candidates for offices unless the decisions to use the convention method are reached by a three-fourths vote of the total membership of such conventions. No conventions shall make nominations for one or more offices at the conventions and order primaries for other offices to be filled during the same election year. Conventions for political parties not nominating candidates in primaries may be called by state and county committees on other dates than that given in this act for conventions after three weeks pub-

lished notice of such calls. If nominations are made by conventions the nominations shall be certified to the Secretary of State for state offices and to the boards of election commissioners for county offices at least ninety days before the general election.

SECTION 6-K: Primary elections nominate candidates—times—entries—death or withdrawal of candidate.—In the event that a party shall nominate candidates by party primary election, a party primary election shall be held by such party on the second Tuesday in July of each general election year, and a second and third primary election each two weeks successively thereafter, if necessary. The entries for those wishing to offer for nomination in such party primary for a statewide or congressional or district office which includes more than one county shall open at noon on the day after the day the State Convention convenes and close at noon two weeks thereafter and the entries for those wishing to offer for nomination in such party primary for a countywide or less than countywide office shall open at noon on the day the County Convention convenes and close at noon two weeks thereafter, but this shall not affect entries and closing dates set by county or state committees prior to the effective date of this act. *Provided*, however, if, after the closing of the time for filing pledges, there be not more than two candidates for any one office and one or more of such candidates dies or withdraws, the State or County Committee (as the case may be) may, in its discretion, afford opportunity for the entry of other candidates for the office involved.

SECTION 6-L: Pledge of candidates—filing—execution—assessments—unopposed candidates.—(1) Every candidate for selection as the nominee of any political party for the offices of governor and all state offices, United States senators, members of Congress, and solicitors, to be voted for in any party primary election shall file with and place in the possession of the treasurer of the state committee, by 12 o'clock noon on the third Thursday following the state convention a notice or pledge in the following form, the blanks being properly filled in and the same signed by the candidate: "I hereby file my notice as a candidate for the nomination as _____ in the primary election to be held on _____. I affiliate with the _____ Party, and I hereby pledge myself to abide by the results of said primary, and to support in the next general election all candidates nominated in said primary."

(2) Every candidate for selection in a primary election as the nominee of any political party for the office of state senator, member of

the house of representatives, and all county and township offices, shall file with and place in the possession of the county chairman or such other officer as may be named by the county committee of the county in which they reside, by 12 o'clock noon on the third Tuesday following the county convention, a like notice and pledge.

(3) The notice of candidacy required by this section to be filed by a candidate in a primary must be signed personally by the candidate himself or herself, and such signature of the candidate must be signed in the presence of the county chairman or such other officer as may be named by the county committee with whom such candidate is filing, or a candidate must have his or her signature on the notice of the candidacy acknowledged and certified by any officer authorized to administer an oath. Any notice of candidacy of any candidate signed by an agent in behalf of a candidate shall not be valid.

(4) The amounts of assessments to be paid by candidates at the time of the filing of the notice of candidacy shall be fixed as to each office by the state or county committee, as the case may be, with whom the notice and pledge has to be filed hereunder for said office.

(5) After the closing of entries if any candidates shall be unopposed, the State Committee in the case of state offices, shall declare the unopposed candidates as party nominees; and the county committees in the case of county offices shall declare such unopposed candidates as nominees, and the names of unopposed candidates shall not be placed upon the primary election ballots but shall be certified for the general election ballots.

SECTION 7: Hours polls open—voter's oath—booths—speaking to voter in booth—ballot boxes—other equipment—number of ballots—time use vote—duties of voter—assistance render voter—ballot marred or defaced by voter—watchers—voting second time—defective ballots—substitute managers—write in candidates—closing polls—counting ballots—more ballots than voters—preservation of peace—presence of peace officers.—In all elections, general, special or primary:

(1) The polls shall be opened at 8 o'clock in the forenoon, and close at 6 o'clock in the afternoon of the day of election, and shall be held open during these hours without intermission or adjournment, but the County Committee may close any poll or all polls within any county at an earlier hour; and the managers shall administer to each person offering to vote an oath that he is qualified to vote at this

election, according to the Constitution of this State, and that he has not voted during this election.

(2) There shall be provided at each polling precinct at least one booth. At least one booth shall be provided for each two hundred and fifty registered electors, or majority fraction thereof. The booths shall be made of wood, sheet metal, or any other suitable substance; shall not be less than thirty-two inches wide and thirty-two inches deep and six feet six inches high, shall be provided with a curtain hanging from the top in front to within three feet of the floor, and shall have a suitable shelf on which the voter can prepare his ballot. In general and special elections the booths shall be provided by the commissioners of election or other electoral board; in primaries by the county committee. But one voter shall be allowed to enter any booth at a time, and no one except the managers shall be allowed to speak to a voter while in the booth preparing his ballot.

(3) There shall be provided for each voting place a sufficient number of boxes to meet the anticipated requirements. In general and special elections they shall be provided by the commissioners of election or other electoral board; in primaries by the county committee. There shall always be provided at least one box for each kind of ballot used. An opening shall be made in the lid of each box not larger than sufficient for a single ballot to be inserted therein at one time, through which the ballot shall be inserted by the person voting, and by no other. Each box shall be provided with a sufficient lock, and shall be publicly opened and inspected, to show that it is empty and secure, and locked just before the opening of the poll. The keys shall be returned to the managers, and the box shall not be opened during the election. Each box shall be labeled in plain and distinct roman letters, with the office or officers voted for, and the managers, on the demand of the voter, shall be required to read to him the names of the boxes. The ballot boxes shall be so located as to be in view of persons outside of the polling place during the time of the voting.

(4) The polling places shall be provided with a table for the managers. The polls shall be provided with a guard rail, so that no one except as herein authorized shall approach nearer than five feet to the booths in which the voters are preparing their ballots. The managers at each voting place shall arrange the table, desk, or other place upon which the ballot boxes shall be placed, so that there shall be no crowding or confusion immediately around the boxes, and suitable means shall be provided to enable each voter to approach the boxes and deposit his ballot without interference or hindrance, and the right

of each person entitled to vote, and the secrecy of the ballot, shall be preserved at all times.

(5) There shall be provided for each voting place where voting machines are not used as many ballots as is equal to one hundred and ten per cent (110%) of the registered qualified voters at such voting place.

(6) No voter, while receiving, preparing and casting his ballot, shall occupy a booth or compartment for a longer time than five minutes. No voter shall be allowed to occupy a booth or compartment already occupied by another, nor to speak or converse with anyone, except as herein provided, while in the booth. After having voted, or declined or failed to vote within five minutes, the voter shall immediately withdraw from the voting place and shall not enter the polling place again during the election.

(7) No voter shall be entitled to or shall receive assistance of any kind who is required by this act to sign the poll list himself before receiving a ballot. *Provided*, this section shall not apply to any voter who is physically unable to or physically incapacitated from preparing his ballot or voting.

(8) No person other than a voter preparing his ballot shall be allowed within the guard rail, except as herein provided. A voter who is not required to sign the poll list himself by this act may appeal to the managers for assistance, and the chairman of the managers shall appoint one of the managers, and a bystander to be designated by the voter, to assist him in preparing his ballot; *provided*, that after the voter's ballot has been prepared, the bystander so appointed shall immediately leave the vicinity of the guard rail.

(9) If a voter shall mar or deface his ballot, he may obtain one additional ballot upon returning to the managers in charge of the ballots the ballot so marred or defaced with the stub attached. The manager in charge of the poll list shall change the number of the ballot on said poll list and place the marred or defaced ballot in a file. No voter shall be given a second ballot until he has returned the first one with the stub attached.

(10) Each candidate who is not unopposed in the primary and each candidate in a general or special election shall have the right to appoint a watcher for any voting place that he may desire.

(11) The managers of election shall prevent any person from voting a second time at the same election when they have good reason to believe such person has already voted. They shall refuse to allow any person to vote who is not a registered elector or who has be-

come disqualified for any cause to vote in such voting precinct. They may also prevent any voter from consuming more than five minutes in voting, but no manager shall examine, read, or handle the ballot being voted or about to be voted by a voter, or interfere in any way with the voting of any voter otherwise than is herein provided.

(12) In case all of the managers shall fail to attend at the same time and place appointed for holding such poll, or shall refuse or fail to act, or in case no manager has been appointed for such poll, it shall be lawful for the voters present at the precinct voting place on that day to appoint from among the qualified voters of such precinct or club the managers to act as managers in the place and stead of the absent managers, and any one of the managers so appointed shall administer the oath to the other managers: *provided*, that in case the duly appointed managers attend in a reasonable time, they shall take charge of and conduct the election.

(13) If a voter marks more or less names than there are persons to be elected or nominated to an office, or if for any reason it is impossible to determine the voter's choice for any office to be filled, his ballot shall not be counted for such office; but this shall not vitiate the ballot, so far as properly marked, and nothing herein shall be construed to prevent any voter in a general or special election from voting for any qualified person, other than those whose names are printed on the ballot, by writing in the name of the person opposite the office.

(14) At the time for closing the polls the chairman of the managers shall announce that the polls are closed, but any voters who are in the process of voting, or are present waiting to vote, shall be allowed to vote before the polls close. At the close of the election the managers and clerk shall immediately proceed publicly to open the ballot boxes and count the ballots therein, and continue such count, without adjournment or interruption, until the same is completed, and make such statement of the result thereof, and sign the same as the nature of the election shall require. No ballot shall be counted upon which there shall appear the name of an office or the name of a person in connection with an office other than that for which the box in which such ballot is found shall be designated and labeled. If, in counting, two or more like ballots shall be found folded together compactly, only one shall be counted; the other must be destroyed; but if they bear different names, all must be destroyed and none counted. If more ballots shall be found on opening the box than there are names on the poll list, all the ballots shall be returned to the box

and thoroughly mixed together, and one of the managers, or the clerk, shall, without seeing the ballots, draw therefrom and immediately destroy as many ballots as there are in excess of the number of names on the poll list. *Provided, however,* that if the ballots found in the box exceed the number of names on the poll list by (25) votes, or (10%) of the votes cast, whichever is the lesser, the ballots shall not be counted, but a new primary or election may be ordered for the particular polling place involved.

(15) Managers of election are clothed with such police power as may be necessary to carry out the provisions of this section. The managers shall possess full authority to maintain good order at the polls and enforce obedience to their lawful commands during an election and during the canvass and counting of the votes. All peace officers are required to answer all calls for help in preserving the peace as may be made by the managers of election.

(16) Any person, when summoned or called upon by the sheriff or deputy sheriff, who shall fail or refuse to assist him in maintaining the peace and good order at the polls, shall be fined in a sum not to exceed one hundred (\$100.00) dollars or imprisoned not to exceed thirty days.

(17) No sheriff, deputy sheriff, policeman, or other officer shall be allowed to come within the polling place except to vote unless summoned into the same by a majority of the managers. On failure of any sheriff, deputy sheriff, policeman, or other officer to comply with the provisions of the preceding sentence, the managers of election, or one of them, shall make affidavit against such sheriff, deputy sheriff, policeman, or other officer for their arrest.

SECTION 8: General or special elections—post copy of constitutional amendments being voted on at each voting precinct—voting procedure at poll—pay poll tax vote—write-in ballots—report results—account for ballots.—In all general or special elections:

(1) Whenever an amendment or amendments to the Constitution of this state shall be voted upon at any election, the commissioners of election of each and every county in the state shall have any such amendment or amendments conspicuously posted at each voting precinct in the county upon the day of the election; such printed amendments to be furnished to the commissioners of election by the secretary of state.

(2) When any person shall present himself to vote, he shall produce his registration certificate, and his name shall be checked on the margin of the page opposite thereto upon the registration books by one of the managers. The clerk of election shall keep a poll list which shall contain one column headed "Names of Voters." Before any ballot is delivered to a voter, the voter shall first sign his name on the poll list. One of the managers shall then compare the signature on the poll list with the signature on the back of the voter's registration certificate, and shall require such other identification of the voter as he deems necessary. If the voter is unable to write, and if his registration certificate bears the certification of the board of registration provided for by section 3-J of this act that it was issued upon the showing of ownership of property under section 3-B of this act; or if the voter is prevented from signing by physical handicap, he shall sign his name to the poll list by mark with the assistance of one of the managers. If the managers are reasonably sure that the person is entitled to vote, they shall then deliver a ballot to such person, and thereupon the voter shall immediately go to the booth and mark his ballot preparatory to depositing it in the ballot box. After the voter has marked his ballot, he shall fold it so as to leave the stub remaining attached thereto visible in such position that it can be detached without unfolding. When the ballot is returned, one of the managers shall detach and retain the stub, and the voter shall then deposit his folded ballot in the box.

(3) Managers of election shall, so long as the constitution of the state so provides, require of every elector offering to vote at any general or special election, before allowing him to vote, proof of the payment thirty days before such election of any poll tax then due and payable. The production of a certificate or of the receipt of the officer authorized to collect such taxes shall be conclusive proof of the payments thereof. *Provided*, that the production of a tax receipt showing payment of taxes due and payable for last taxable period before the election shall be conclusive proof of the payment of all taxes.

(4) In casting a write-in ballot, the voter shall cast the same in his own handwriting or in the handwriting of a duly authorized manager who is aiding the voter in casting his ballot when assistance is authorized by this act.

(5) When the canvassing and counting of the votes are completed, the chairman of the managers, or one of them to be designated in writing by the managers, shall deliver to the commissioners of elec-

tion the poll list, the boxes containing the ballots, and a written return of the result of the election in the voting precinct. Managers shall account to the commissioners of election of the county for all ballots delivered to them, and make the following returns: (a) the number of official ballots furnished to each voting precinct; (b) the number of official ballots spoiled and returned by voters; (c) the number of official ballots returned to the commissioners of election; and (d) the number of official ballots actually voted.

The said commissioners of election shall forward to the Secretary of State all unused ballots furnished by him, including those that have been spoiled. Any ballot that has been lost must be accounted for by a certificate from the chairman of the managers of the particular precinct, covering the circumstances.

SECTION 9: Party primary elections — ballots — manager's oath—voter's oath—voting procedure—vote in only one primary election daily—challenged votes—managers report result and account for ballots.—In all party primary elections:

(1) The Ballots shall contain in print the names of all candidates and shall have a stub at the top perforated so as to be easily detached. On the stub shall be printed "Official Ballot." Club ———, No. ———, on the right side there shall be a blank line under which shall be printed "Initials of Issuing Officer." The numbers shall run *seriatim* for each club. The ballots shall be furnished by the state committee for all except county officers, congressmen and circuit solicitors, for which the county committee shall furnish the ballots. One ballot shall contain the names of all persons running for state offices and United States Senator. The other ballot shall contain the names of all persons running for the General Assembly, county offices, congressmen and solicitors.

All ballots furnished by the state committee hereunder shall have marked thereon in plain type, both on the stub and on the ballot proper, the words "State Ballot", and all ballots furnished by the county committee hereunder shall have marked thereon in plain type, both on the stub and on the ballot proper, the words "County Ballot."

The "State Ballot" shall be printed on yellow paper, and the boxes in which the same is to be deposited shall be painted the same color; and the "County Ballot" shall be printed on plain white paper, and the boxes in which the same is to be deposited shall be painted white.

(2) The managers, before opening the polls, shall take and sign the following oath: "We do solemnly swear that we will conduct this primary election according to law and the rules of the ———"

Party, and will allow no person to vote who is not entitled by law and by the rules of the said Party to vote in this club, and we will not unlawfully assist any voter to prepare his ballot, and will not advise any voter as to how he shall vote at this election."

(3) The managers at each box shall require every voter to take the following additional oath and pledge: "I do solemnly swear or affirm that I am duly qualified to vote at this primary election and in this club, and that I will support the nominees of this primary election in the general election next ensuing, and that I have not voted before at this primary election or in any other primary election held this day."

(4) When any person shall present himself to vote, he shall produce his registration certificate, and his name shall be checked on the margin of the page opposite thereto upon the registration books, or copy thereof, furnished by the board of registration hereunder, by one of the managers. The managers shall keep a poll list which shall contain one column headed "Names of Voters." Before any ballot is delivered to a voter, the voter shall first sign his name on the poll list. One of the managers shall then compare the signature on the poll list with the signature on the back of the voter's registration certificate, and shall require such other identification of the voter, and such proof of his right to vote in said primary election under this act and under the rules of the party, as he deems necessary. If the voter is unable to write, and if his registration certificate bears the certification of the board of registration provided for in section 3-J of this act that it was issued upon the showing of ownership of property under section 3-B of this act, or if the voter is prevented from signing by physical handicap, he shall sign his name to the poll list by mark with the assistance of one of the managers. If the managers are reasonably sure that the person is entitled to vote, they shall then deliver a ballot to such person, and thereupon the voter shall immediately go to the booth and mark his ballot preparatory to depositing it in the ballot box. After the voter has marked his ballot, he shall fold it so as to leave the stub remaining attached thereto visible in such position that it can be detached without unfolding. When the ballot is returned, one of the managers shall detach and retain the stub, and the voter shall then deposit his folded ballot in the box. No person shall be entitled to vote in more than one party primary election held the same day hereunder.

(5) When the right of a person to vote is challenged, the managers shall place the vote so challenged in an envelope and indorse thereon

the name of the voter and that of the challenger, and the person so challenged shall be allowed to vote. The challenged votes shall be kept separate and apart and not counted, but turned over to the county committee, who shall at its first meeting thereafter hear all objections to such votes, and where no person appears to sustain an objection made at the polls the ballot shall be removed from the envelope and mingled with the regular ballots and counted, but where the challengers appear, or produce witnesses in support of the challenge, the committee shall proceed to hear and determine the question, and in all instances the voter and the challenger shall have the right of appealing to the state committee.

(6) When the canvassing and counting of the votes is completed, the chairman of the managers, or one of them to be designated in writing by the managers, shall deliver to the county committee the poll list, the boxes containing the ballots, and a written return of the result of the election in the club. The managers shall be responsible for all ballots furnished. Upon the close of the election, the managers shall account to the executive committee for all ballots delivered to them, and make the following returns: (a) the number of ballots furnished to each club; (b) the number of ballots spoiled and returned by voters; (c) the number of ballots returned to the county committee; and (d) the number of ballots actually voted.

SECTION 10: Declarations of results—protests and contests—appeal—votes necessary to nominate—unopposed candidates nominees.—The county committees shall assemble at their respective court houses on the morning of the second day after the election at eleven in the forenoon to tabulate the returns and declare the results of the primary, so far as the same relates to members of the General Assembly and county officers, and shall forward immediately to the state chairman at Columbia, S.C., the result of the election in their respective counties for United States Senator, state officers, congressmen and solicitors. The state committee shall proceed to canvass the vote and declare the result of the primary in the state as to such last named officers.

The protests and contests in the case of county officers and members of the General Assembly shall be filed in writing with the county chairman within two days after the day of the declaration by the county committee of the result of the election; and the county committee shall hear and determine the same at its first meeting thereafter, which shall be held within five days after such protests or

contests are filed. The state committee shall meet on the Tuesday after each primary, or at such other time as may be designated by the state chairman, to hear and decide protests and contests as to United States Senators, state officers, congressmen and solicitors; no members of the county committee or of the state committee shall act in any protest or contest wherein his candidacy is acted on. The protests and contests for all officers, except county officers and members of the General Assembly, shall be filed within five days after the election with the state chairman.

The state committee shall also review, on appeal, the decision of the county committee as to county officers and members of the General Assembly, and its action shall be final.

No candidate shall be declared nominated in a first primary election unless he received a majority of the votes cast for the office for which he was a candidate. The question of a majority vote shall be determined by the number of votes cast for any particular office and not by the whole number of votes cast in the primary.

Provided, however, that all unopposed candidates in primary elections shall be declared the nominees of the party by the respective state or county committees.

SECTION 11: Second primary—candidates—votes nominee receive—tie vote—additional primary.—A second primary, when necessary, shall be held two weeks after the first and shall be subject to the rules governing the first primary. At said second primary the two highest candidates alone shall run for any one office, but if there are two or more vacancies for any particular office, then the number of candidates shall be double the number of vacancies to be filled. In all second primaries the candidate receiving the largest number of votes cast for a given office shall be declared the nominee for such office whether or not such person shall have received a majority of the votes cast for that office; and where there are several candidates for several different offices, such as candidate for the House of Representatives, then the several candidates receiving the largest number of votes for the several positions shall be considered as nominated for said offices whether they shall have received a majority of the votes cast therefor or not; in the event of a tie between two candidates in the second primary, the county chairman, if it is a primary for a county office wherein the tie shall occur, or the state chairman, if it is a primary for United States Senator, or for any state office,

congressman or solicitor wherein the tie shall occur, shall order a third primary.

Other primaries, if necessary, shall be ordered in like manner by the county chairman or the state chairman, as the case may be.

SECTION 12: Municipal primary elections—protest or contest appeal—board of state canvassers for municipal primaries.—(1)

Party primary elections to nominate party candidates for municipal offices shall be held under the provisions of this act as they may be applicable, *mutatis mutandis*, and the rules promulgated in reference thereto by the city party convention.

(2) In every political primary election held by any political party, organization or association in any of the cities or towns of this state for the purpose of choosing candidates for offices therein or the election of delegates to conventions thereof, the decision of any protest or contest that may arise shall be subject to appeal to the board of state canvassers of municipal primaries of this state herein provided for, and upon such appeal it shall be the duty of the committee of canvassing officers from whose decision such appeal may be made to transmit to said board of state canvassers any protest and all papers relating to the election, with a copy of any evidence taken before them, within ten days from their first meeting to canvass the returns of managers of such election.

(3) The state executive committee of every political party in this state which may have such a committee shall immediately after its appointment elect from its body a committee of one from each congressional district which shall constitute the board of state canvassers for municipal primaries, each of whom, before hearing any appeal, shall take and subscribe an oath that he will fairly and impartially and honestly decide such an appeal, and shall have power upon collection by their chairman of the estimated amount of the expenses of such appeal by the person or persons making the same, to decide as judicial officers all cases under protest or contest that may come before them on appeal from any decision of said committees and canvassing officers from whose decisions appeal is made upon the papers transmitted to them by said committees or canvassing officers, and the person or persons declared by said state board of canvassers for municipal primaries to be nominated at such election shall be the nominee or nominees of such political party in the respective elections for which such nominations were made.

(4) Any vacancies in said board of state canvassers of municipal primaries, of whom a majority shall be a quorum, shall be filled by the state executive committee, or in case they should not be in session, by the chairman of the state executive committee, and the members of said board shall serve until the meeting of the next state executive committee.

SECTION 13-A. Voting machines.—The county board of commissioners or other governing body of any county, and the council or other governing body of any city or town in this state, may provide for use at elections, any kind or type of voting machine that fulfills the requirements of this act and has been approved by the state board of voting machine commissioners, and the commissioners of election or other electoral board shall have authority to use such voting machines at any and all general or special elections held in such county, city or town, or any part thereof, or in any one of more voting precincts therein for voting, registering and counting votes cast at such elections, and shall have authority to purchase, lease, or otherwise acquire such voting machines and to provide for the payment therefor, in such manner as said governing bodies may severally deem proper. Voting machines of different kinds may be adopted for use and used in different districts of the same city, town or county.

SECTION 13-B: State board of voting machine commissioners.—The board of state canvassers shall, ex-officio, be and constitute the state board of voting machine commissioners.

SECTION 13-C: May examine voting machines—use only approved.—Any person, firm or corporation owning or being interested in any voting machine may apply to the state board of voting machine commissioners to examine such machine, and to make a report to the secretary of state or successor in office, upon the capacity of the machine to accurately register and count votes, and in respect to mechanical perfections and imperfections, and whether the same meets the requirements prescribed in this act. This report shall be filed in the office of the secretary of state and shall state whether in their opinion the kind of machine so examined can be safely and conveniently used at elections as herein provided. If the report states that the machine can be so used, and meets the requirements herein prescribed, it shall be deemed approved by the said board and machines of its kind may be adopted for use at elections as herein provided. No form of voting machine not so approved

shall be used at any election. The state board of voting machine commissioners shall have authority to employ such experts as it may deem necessary to assist in the examination of a machine at a cost of not exceeding fifty dollars for each examination, the said cost to be paid by the person, firm or corporation applying for such examination.

SECTION 13-D: Voting machine requirements.—Any kind or type of voting machine may be approved by the state board of voting machine commissioners which is so constructed as to fulfill, and does fulfill the following requirements. Such sample ballots shall be open to public inspection at such polling place during the day of election.

SECTION 13-I: Custodians of voting machines—condition—party representatives check and seal machines—equipment.—It shall be the duty of the commissioners of election or other electoral board, as the case may be, to have the voting machine or machines and all necessary furniture and equipment at the polling places before the time fixed for the opening of the polls, and have the counters on the machines set at zero (000), and otherwise in good and proper order for use at such election. For the purpose of placing ballots in the frames of the machine, putting it in order, setting, testing, and adjusting, and delivering the machine, the commissioners of election or other electoral board may employ one or more competent persons, to be known as custodian or custodians of voting machines, who shall be fully competent, thoroughly instructed and sworn to perform their duties honestly and faithfully, and for such purpose shall be appointed and instructed at least thirty days before the election and shall be considered as election officers. Before preparing a voting machine for any election at which candidates for more than one political party or candidates nominated by petition are to be voted for, written notice shall be mailed to the chairman of the local committee of each of the two political parties which at the general election next preceding cast the highest and next highest number of votes, stating the time and place where the machines will be prepared, at which time one representative of each such political party shall be afforded an opportunity to see that the machines are in proper condition for use at the election. When a machine has been so examined by such representative it shall be sealed with a numbered metal seal in their presence. Such representative shall certify as to the numbers of the machines, that all counters are set at zero (000) and as to the number registered on the protective counter, and the number on the seal. When a voting machine has been properly prepared for an election, it shall be locked against voting and sealed; and the keys thereof shall be retained in the

custody of the commissioners of election or other electoral board and delivered to the managers of election as hereinafter provided. After the voting machines have been delivered to the polling places it shall be the duty of the commissioners of election or other electoral board to provide ample protection against molestation or injury to the machine. Every voting machine shall be furnished with a lantern, or other proper light, if necessary, to enable the voters while voting to read the ballots, all voting machines used in any election shall be provided with a screen, hood or booth which shall conceal the voter and his action while voting.

SECTION 13-K: Exhibit and demonstrate voting machines.—In any county, city or town in which voting machines are to be used, the commissioners of election or other electoral board may designate suitable and adequate times and places for the exhibition and demonstration of a voting machine containing sample ballots, showing the title of offices to be filled and so far as practicable, the names of the candidates to be voted for at the next election for the purpose of giving instructions as to the use of a voting machine to all voters who may apply for the same. No voting machine shall be used for such instruction after being prepared and sealed for use in an election. During such exhibition the counting mechanism of the voting machine shall be concealed from view.

SECTION 13-L: Placement and inspection of voting machines in polling places—attendance of persons.—At any and all elections at which voting machines are used, the exterior of the voting machine and every part of the polling place shall be in plain view of the managers and clerks, if there be clerks of election. The voting machine shall be placed at least three feet from every wall or partition of the polling place, and at least five feet from any table whereat

any of the election managers and clerks, if there be clerks, may be engaged or seated. The voting machine shall be so placed that the ballots on the face of the machine can be plainly seen by the managers of the election when not in use by voters. "The managers of election shall not themselves be, or permit any other person to be, in any position or near any position that will permit them to see or ascertain how a voter votes or how he has voted. One of the managers of election may inspect the face of the machine after each voter has cast his vote, to see that the ballots on the face of the machine are in their proper places and that the machine has not been injured. During an election the door or other covering of the counter compartment of the machine shall not be unlocked or open or the counters exposed except for good and sufficient reasons, a statement of which shall be made and signed by the managers of election and attached to the returns of election. No person shall be permitted in or about the voting place except as now provided by law in elections where paper ballots and ballot boxes are used.

SECTION 13-M: Duties of managers prior to opening polls—write-in ballots—unopposed candidates.—The managers of each election precinct at which a voting machine is to be used shall meet at the voting place at least three-quarters of an hour before the time set for the opening of the polls at each election, and shall proceed to arrange within the guard rail the furniture, stationery and voting machine or machines for the conduct of the election. The managers of election shall then and there have the voting machines, ballots and stationery required to be delivered to them for such election. The managers shall thereupon post at least two instruction cards conspicuously within the polling place. If not previously done, they shall arrange, in their proper place on or in the voting machine, the ballots prepared for such election. The keys to the voting machine shall be delivered to the managers of election at least thirty minutes before the time set for the opening of the polls, in a sealed envelope, on which shall be written or printed the number of the voting machine, the number of the seal and the number registered on the protective counter device. "The envelope containing the keys shall not be opened until all of the managers of election for such precinct shall be present at the polling place and shall have examined the envelope to see that it has not been opened. The machine shall remain locked against the voting until the polls are formally opened and shall not be operated except by voters in voting. Before opening the polls each

manager shall examine the machines and see that no vote has been cast and that the counters register zero (000).

If any counter is found not to register zero (000), the managers shall adjust the counters at zero (000) if it can be done by them, if not, they shall make a written statement of the designating letter and number of such counter, together with the number registered thereon, and shall sign and post the same upon the wall of the polling room, where it shall remain during the day of election, and in making the statement of canvass, they shall subtract such number from the number of registered ballots thereon. Ballots voted for any person whose name does not appear on the machine as a nominated candidate for office are herein referred to as write-in-ballots. All write-in-ballots voted shall be deposited written or affixed in a single receptacle or device, and the elector may vote in or by such receptacle or device for one or more persons whose names do not appear upon the machine with or without the names of one or more persons whose names do so appear. A write-in ballot must be cast in its appropriate place on the machine, or it shall be void and not counted.

In any party primary in which voting machines shall be used in one or more voting precincts, the name of any unopposed candidate for nomination for any office shall be omitted from the ballot used in any such voting machine, and such unopposed candidate shall be declared to have received the total number of votes cast in such voting precinct.

SECTION 13-N: Persons within guard rail—time permit to vote.—After the opening of the polls, the managers of election shall not permit any voter or other person to pass within the guard rail until they ascertain that he or she is entitled to vote, in the manner required by section 8, sub-section (2), or section 9, sub-section (4), of this act, as the case may be, and only one voter at a time for each voting machine at the voting place shall be permitted to pass within or be within the guard rail to vote. No voter shall remain within the voting machine booth longer than three minutes, and if he or she shall refuse to leave it after the lapse of three minutes, he shall be removed by the managers; *provided*, that the managers, in their discretion, may permit a voter to remain longer than three minutes.

SECTION 13-O: Instruction of voters.—For the instruction of voters on any election day, there shall be provided for each polling place a mechanically operated model of a portion of the face of the

machine. Such model shall be located on the table of one of the managers or in some other place accessible to the voters and each voter so desiring shall, before entering the machine, be instructed regarding its operation and such instruction illustrated on the model, and the voter given an opportunity to personally operate the model. The voter's attention may also be called to the diagram of the face of the machine so that the voter may become familiar with the location of the questions and the names of the offices and candidates. In case any voter, after entering the voting machine, shall ask for further instructions concerning the manner of voting, two of the managers shall give such instructions to him, but no manager or other election officer shall in any manner request or seek to persuade or induce any such voter to vote any particular ticket, or for or against any particular candidate, or for or against any particular amendment, question or proposition. After giving such instructions the managers shall, before the voter has voted, retire, and such voter shall cast his ballot in secret.

SECTION 13-P: Assistance give voters—"booth" defined.—The provisions of this act relating to the assistance to be given to voters shall also apply where voting machines are used, and the word "booth", when used in sections, shall be interpreted to include the voting machine booth curtain or enclosure.

SECTION 13-Q: Voting machine inoperative.—In case any voting machine used in any election district shall, during the time the polls are open, become injured so as to render it inoperative in whole or in part, it shall be the duty of the managers to give immediate notice thereof to the commissioners of election or other electoral board, and it shall be the duty of such commissioners or other electoral board, if possible, to substitute a machine in good order for the injured machine, and at the close of the polls the record of both machines shall be taken, and the votes shown on their counters shall be added together in ascertaining the results of the election. If no other machine is available for use at such election, and the injured one cannot be repaired in time to continue use thereof at such election, unofficial ballots made as nearly as possible in the form of the official ballots may be used, received by the managers of election and placed in a receptacle in such case to be provided by the election officials, and counted with the votes registered on the voting machine; and the result shall be declared as though there had been no accident to the voting machine. The ballots thus voted shall be preserved

and returned with the statement of canvass with a certificate setting forth how and why the same were voted.

SECTION 13-R: Duties of managers after polls closed—time keep voting machines locked.—As soon as the polls of election are closed the managers shall immediately lock and seal the voting machine against further voting and open the counter compartment in the presence of all persons who may be lawfully present at the time giving full view to the counters, and shall canvass and announce the results as shown by the counters including the votes recorded for each office on the independent ballots, and shall also announce the vote upon every amendment, proposition or question voted upon. The vote as registered shall be entered on a statement of canvass and when so completed shall be compared with the numbers on the counters of the machine. If found to be correct the statements shall be duly certified and sworn to and returned and filed as provided in this act for returning and filing election returns. No tally sheets nor return blank as required by law for use in voting precincts where paper ballots are used need be furnished or used where voting machines are used, and no ballots need be returned with the statement of canvass except the write-in ballots. The keys of the voting machine shall be inclosed in a sealed envelope having endorsed thereon a certificate of the managers of election stating the number of the machine, the voting precinct, the number on the seal and the number on the protective counter, and shall be returned and delivered by one of the managers of the election to the commissioners or other electoral board from whom the keys were received. After being locked by the managers of election the voting machines shall remain locked for the period of thirty days, or as much longer as may be necessary or advisable because of any threatened contest over the result of the election, except as may be necessary to prepare the machines for another election, and except that they may be opened and all data examined upon the order of a court of competent jurisdiction.

In order to attain the objectives of this Act, the Authority, after proper study, and after conducting public hearing upon due notice, shall group the designated waters of the State into classes. Such classification shall be made in accordance with considerations of best usage in the interest of the public and with regard to the considerations mentioned in sub-paragraph "b", Section 3 hereof. Such classification may from time to time be altered or modified by the Authority. Standards of quality and purity for each such classification of the waters, shall be adopted by the Authority in relation to the public use of benefit to which said waters are or may in the future be put, and with regard to the considerations mentioned in sub-paragraph "b", Section 3 hereof. Such standards may from time to time be altered or modified by the Authority.

Such standards may prescribe:

(a) the extent, if any, to which floating solids may be permitted in the water;

(b) the extent to which suspended solids, colloids or a combination of solids with other substances suspended in water may be permitted;

(c) the extent to which organisms of the coliform group (intestinal bacilli), or any other bacteriological organisms may be permitted in the water;

SECTION 5: Hearings — decisions — records — witnesses—contempt.—Public hearings shall be conducted by the Authority in connection with and prior to action by the Authority in the classification of the waters or the adoption or establishment of standards of purity and quality thereof, as provided by Section 4. The hearings herein provided may be conducted by the Authority itself at a regular or special meeting of the Authority, or the Authority may delegate to any member, or group of members, or to the Executive Director, or to any employee or agent of the Authority, the power and authority to conduct such hearings in the name of the Authority at any time and place. *Provided, however,* that it shall be the duty of the Authority for the control of water pollution to make all necessary decisions as to the matter under consideration.

A record, or summary thereof, of the proceedings of said hearings shall be taken and filed with the Authority. If requested to do so by any person concerned with said hearings, a full stenographic transcript, or the actual recording by an acceptable device, of the testimony presented at said hearing shall be made and filed.

In any such hearing, any member of the Authority, the Executive Director, or any employee or agent thereof authorized by the Authority, may administer oaths, examine witnesses and issue in the name of the Authority, notices of hearings and subpoenas requiring the attendance and testimony of witnesses and the production of evidence relevant to any matter involved in any such hearing.

Witnesses shall receive the same fees and mileage as in civil actions.

In case of contumacy or refusal to obey a notice of hearing or subpoena issued under this section, the Court of Common Pleas shall have jurisdiction, upon application of the Authority, to issue an order requiring such person to appear and testify or produce evidence, as the case may require, and any failure to obey such order of the court may be punished by said court as a contempt thereof.

SECTION 6: Appeals.—Any person, firm or corporation may appeal from any order of the Authority made hereunder, within thirty (30) days after the filing of the Order, to the Court of Common Pleas of any county in which the waters in dispute are located. The Authority shall thereupon certify to the Court the record in the hearing. The Court shall review the record and the regularity and the justification for the Order, on the merits, and render judgment thereon as in ordinary appeals in equity. The Court may order or permit further testimony on the merits of the case, in its discretion such testimony to be given either before the judge or referee by him appointed; and from such judgment of the Court an appeal may be taken as in other civil actions.

SECTION 7: File rules, regulations, classifications and standards.—The rules and regulations of the Authority as provided in Section 3, and the classification of waters and standards adopted as provided in Sections 3 and 4 shall, before becoming effective, be filed with the Secretary of State.

SECTION 8: Unlawful cause or permit pollution of waters in contravention of standards.—It shall be unlawful for any person, di-

rectly or indirectly, to throw, drain, run or otherwise discharge into any of the waters of this State, or cause, permit or suffer to be thrown, run, drain, allowed to seep, or otherwise discharged into such waters organic or inorganic matter that shall cause or tend to cause a condition of pollution in contravention of the standards adopted by the Authority.

SECTION 9: Permit required to discharge sewage or waste thru new outlet into waters.—After the enactment of this Act, any person desiring to make or cause to make any new outlet for the discharge of sewage, industrial waste or other wastes, of the effluent therefrom, into the waters of this State, shall first make an application to the Authority for a permit to construct and use such outlet. If, after hearing, the Authority finds that the discharges from such proposed outlet will not be in contravention of the standards adopted by the Authority, such permit shall be issued to such applicant. No person shall make or cause such outlet to be made without the prior issuance of such permit by the Authority.

SECTION 10: Not construct sewage disposal system for disposal of sewage into waters, make major changes in existing disposal system, operate either of such systems, or increase load thru existing outlets without permit.—It shall be unlawful for any person, until plans therefor have been submitted to and approved by the Authority and written permit therefor shall have been granted by the Authority, to:

(a) construct or install a disposal system which shall have as its object the discharge of sewage, industrial waste or other wastes of the effluent therefrom, into the waters of the State, or

(b) make any change in, addition to or extension of any existing disposal system or part thereof that would materially alter the method or the effect of treating or disposing of the sewage, industrial waste or other wastes, or

(d) increase the load through existing outlets of sewage, industrial waste or other wastes into the waters of the State.

SECTION 11: Discharge or run of sewage or waste into waters of marine district.—Sewage, industrial waste or other wastes shall not be placed or allowed to run into the waters of the marine district, or waters tributary thereto, in contravention of the standards adopted

by the Authority pursuant to Section 4 of this Act; provided that this section shall become effective as to new sources of pollution upon the effective date of this Act; *provided, further*, that in the case of such existing discharges no final order of discontinuance of present discharges shall be entered until five years after service of an order of this Authority, *provided, however*, that the State Board of Health may summarily order the discontinuance of the discharge of any waste that is found to be a menace or hazard to public health.

SECTION 12: Discontinue or abate existing discharge when ordered.—Any person who at the time of the enactment of this Act is discharging sewage, industrial waste or other wastes into any of the waters of the State, without regard to the time that such discharge began, or whether such continued discharge has been by virtue of a permit issued by the State Health Officer in accordance with the provisions of Section 5002, Title 30, Chapter 121, Page 170, Code of Laws of South Carolina, 1942, shall discontinue the discharge of such sewage, industrial waste or other wastes into, or in such manner or quantity as to cause pollution of the water of the State upon receipt of the final order of the Authority, issued pursuant to the provisions of Sections 3, 4 and 5. *Provided, however*, that in the case of such existing discharges, except those discharges causing an actual or potential hazard to public health, no final order of discontinuance of discharge shall be entered until one year after service of any order of the Authority determining that such discharge constitutes pollution in contravention of the standards adopted by the Authority, and directing the alleged polluter to take such steps as may be necessary to abate the polluting content of such discharge to conform with the standards of the Authority. Nothing herein contained shall be construed to postpone, stay or abrogate the enforcement of the provisions of the public health laws of this State and rules and regulations promulgated thereunder in respect to discharges causing actual or potential hazards to public health.

SECTION 13: Inability comply with standards or orders because of no practical method for disposal or treatment.—Notwithstanding the provisions of Sections 3, 4, 5, 11 and 12, if, after public hearing, the Authority finds that it is impossible or impracticable for any person to comply with the standards, determinations or orders of the Authority as to treatment of sewage, industrial waste or other wastes, because no adequate or practical method

of disposal or treatment is known to construct the necessary treatment works or provide other adequate means of disposal, the Authority shall not order the abatement or cause suit or action to be brought to prevent or abate the discharge of such sewage, industrial waste or other wastes by such person during such period of time, not in excess of five years, as the Authority determines necessary in order to provide means for disposal or treatment of such sewage, industrial waste or other wastes, so as to comply with such recommendations or such requirements. Extensions of time beyond the five-year or shorter period may be granted by the Authority after public hearing, if the person involved shows to the satisfaction of the Authority that he has diligently tried to comply with the orders of the Authority. In all proceedings under this section, the burden of proof shall be upon the person seeking a postponement, stay, extension of time or other relief; *Provided, however*, that the State Board of Health may summarily order the discontinuance of the discharge of any waste that is found to be a menace or hazard to public health.

SECTION 14: Legal advisor—duties—evidence.—The Attorney General shall be the legal advisor of this Authority and it shall be his duty, upon request of the Authority, to institute injunction proceedings or any other court action to accomplish the purpose of this Act. In any action brought pursuant to this Act, any finding of the Authority shall be *prima facie* evidence of the fact found therein.

SECTION 15: Penalties violate order—prosecutions.—Any person who shall wilfully violate any final determination or order of the Authority promulgated pursuant to this Act, shall be guilty of a misdemeanor and, upon conviction thereof, shall be punished by a fine of not less than one hundred dollars, nor more than five hundred dollars or by imprisonment for a term of not more than one year, or by both such fine and imprisonment, for each separate violation. Each day upon which such violation occurs shall constitute a separate violation.

No prosecution under this section shall be instituted until after final disposition of an appeal or review, if any, provided by Section 6; and until after the expiration of any extension of time, or a denial of an application therefor pursuant to Section 13. In the prosecution of any criminal action under this section by the Attorney General and, in any proceeding before a grand jury in connection therewith,

the Attorney General may exercise all the powers and perform all the duties which the solicitor would otherwise be authorized or required to exercise to perform, and in such a proceeding the solicitor shall exercise such powers and perform such duties as are requested of him by the Attorney General.

Such prosecutions shall be instituted only by the Authority and in the name of the people of the State of South Carolina, *provided, however*, that nothing contained in this Act shall prevent the Board of Health from exercising its right to prevent and abate nuisances.

SECTION 16: Exempt violations.—The civil and criminal liabilities herein imposed upon persons violating the provisions hereof shall not be construed to include any violation which was caused by an act of God, war, strike, riot or other catastrophe as to which negligence on the part of such person was not the proximate cause.

SECTION 17: Purposes—remedies cumulative—estoppel.—It is the purpose of this Act to provide additional and cumulative remedies to abate the pollution of the waters of the state and nothing herein contained shall abridge or alter rights of action in the civil courts, or remedies now or hereafter existing in equity, or under the common law or statutory law, nor shall any provision in this Act, or any act done by virtue of this Act, be construed as estopping the state, persons or municipalities, as riparian owners or otherwise, in the exercise of their rights under the common law, statutory law or in equity to suppress nuisances or to abate any pollution now or hereafter existing.

SECTION 18: Repeal—rights abate nuisance.—All Acts or parts of Acts, so far as in conflict only, with the provisions of this Act are hereby repealed to the extent of such inconsistencies. Provided, however, rights to abate a nuisance under the common law, statutory law or in equity shall not be deemed to be affected by the terms of this Act.

SECTION 19: Actions resulting from violations inure solely to the State—personal rights.—The causes of action resulting from the violations of the prohibitions contained in this Act inure solely to and are for the benefit of the people of the State of South Carolina, and it is not intended to in any way create new, or enlarge existing, common law or statutory rights or riparian owners or others. A determination by the Authority that pollution exists and/or violations of any of the

prohibitions contained in this Act, whether or not actionable by the State, create no presumption of law or fact inuring to or for the benefit of persons other than the State.

To obtain funds to be used in whole or in part for the construction and equipment or for the remodeling, reconstruction and re-equipment of a Farm Market Project, the commission shall be empowered to issue revenue bonds. The said bonds shall be payable solely from the revenues derived from the project or projects, for which the proceeds

thereof shall be expended. Neither the faith and credit of the State of South Carolina, nor of the commission shall be pledged for the payment of the principal and interest of such bonds, and there shall be on the face of each bond a statement, plainly worded, to that effect. Such bonds shall be serial bonds, maturing in equal or unequal amounts, at such times and on such occasions as said commission shall determine, provided always that the last maturing bonds of any issue shall become due not later than thirty (30) years from their date, and the first maturing of any bonds issued pursuant to this act shall fall due within five (5) years from the date such bonds bear. The coupons attached to such bonds shall be authenticated by the facsimile signatures of said chairman and the state treasurer, who is in office on the date of such bonds. The delivery of the bonds so executed shall be valid notwithstanding changes in officers or seal occurring after such execution.

Such bonds shall be sold at public sale after notice published at least fifteen (15) days prior to such sale in a newspaper having a general circulation in the State of South Carolina, and in a financial publication published in the City of New York, N. Y.; *provided* that if no bid is received upon such notice which is acceptable to the commission, such bonds may be then sold at private sale at any time within thirty (30) days after date for receiving bids as given in such notice; *provided, however*, that such bonds may, in the discretion of the commission, be sold to the Federal Government, or any agency thereof, or to the State Government, or any agency thereof, at private sale, without any public advertisement. In all instances, the bonds

shall be sold in such way as the commission shall determine to be most advantageous. The purchase of any revenue bonds issued pursuant to this act by the State Sinking Fund Commission is specifically authorized under such terms and conditions as said State Sinking Fund Commission shall prescribe.

Such bonds shall be exempt from all state, county, municipal, school district and all other taxes or assessments, direct or indirect, general or special, whether imposed for the purpose of general revenue or otherwise.

It shall be lawful for all executors, administrators, guardians and fiduciaries, and all sinking fund commissions to invest any moneys in their hands in such bonds.

To the end that projects authorized by this act may be properly financed, and that payment of the interest and principal of all bonds issued pursuant to the provisions of this act shall be adequately secured, the commission shall be empowered, in its discretion:

1. To issue bonds in such amount as shall not exceed the estimate of the cost of the project intended to be constructed from the proceeds of such bonds, plus such further sum as may be needed to pay the interest on such bonds until adequate revenues are derived from such project, which period shall not exceed three (3) years from the date of such bonds.

2. To apply, within the limitations of paragraph 1, supra, a portion of the proceeds of the bonds to the interest to become due thereon.

3. To pledge the whole or any part of the revenues of the project, whose construction is made possible, in whole or in part, through the proceeds of the bonds, for the payment of the principal and interest of said bonds as the same respectively mature.

4. To covenant that no services or facilities afforded by the particular project will be used free of charge.

5. To covenant that fees or rents will be charged for the use of all facilities afforded by the project, and that the schedule of fees and charges to be put into effect will be designed to produce sufficient revenues to:

- (a) Pay the cost of operating and maintaining the particular project;
- (b) Pay the interest and principal of bonds issued to finance the project, as the same respectively become due;
- (c) Create adequate reserves to meet the payment of such principal and interest;
- (d) Provide for contingencies; and,

(e) Provide an adequate reserve for depreciation and obsolescence.

6. To covenant against the mortgaging or disposal of all or any part of any project, and against permitting or suffering any lien to be created thereon.

7. To covenant against the use of any revenues derived from said project for any purpose save those enumerated in paragraph 5, *supra*.

8. To covenant that the proceeds derived from the sale of such bonds shall be applied solely to the project, whose construction is thereby financed, and within the limitations of paragraph 1, *supra*, to pay interest on such bonds, and that any surplus shall be used solely for the retirement of such bonds.

9. To covenant as to what, if any, additional bonds may be issued, payable from the revenues of such project.

10. To covenant that all additional bonds payable from the revenues of any project be junior and subordinate to the lien of the first issue of bonds payable from the revenues of any particular project.

11. To provide for the terms, form, registration, exchange, execution and authentication of bonds, and for the replacement of lost, destroyed or mutilated bonds.

12. To make covenants with respect to the use of the project and its facilities and any services rendered by such project.

13. To covenant with respect to the deposit and segregation of all funds derived from such project into proper accounts.

14. To covenant that all revenues from any project and the proceeds of all revenue bonds be deposited with the state treasurer, who shall be empowered to disburse and segregate the same in accordance with the terms of the resolution providing for the issuance of any bonds.

15. To lease any of the facilities of any project on such terms and for such periods of time as, in the opinion of the commission, are best designed to produce the revenues required to operate the project and to meet the payment of the principal and interest of bonds issued for such project.

16. To provide for the optional or mandatory call of any bonds issued pursuant to this act, on such terms and conditions as the resolution authorizing such bonds shall prescribe.

17. To prescribe the procedure, if any, by which the terms of any contract with the bondholders may be amended or abrogated, the amount of bonds the holders of which must consent thereto, and the manner in which such consent may be given.

18. To covenant as to the maintenance of its property, the replacement thereof, the insurance to be carried thereon, and the use and disposition of insurance moneys.

19. To covenant and prescribe as to the events of default and terms and conditions upon which any or all of its bonds shall become or may be declared due before maturity and as to the terms and conditions upon which such declaration and its consequences may be waived.

20. To covenant as to the rights, liabilities, powers and duties arising upon the breach by it of any covenant, condition, or obligation.

21. To make such further covenants as may, in the opinion of the commission, be deemed necessary in order to insure the proper sale of any bonds issued pursuant to this act.

22. To impose a statutory lien upon any project, whose construction is financed in whole or in part by the proceeds of bonds issued pursuant to this act. Such a statutory lien shall extend to such project, its appurtenances and extensions, additions, improvements and enlargements, and shall inure to the benefit of the holders of any bonds or coupons secured thereby.

B. Should, pursuant to the provisions of this act, a statutory lien be imposed upon any project, such project shall remain subject to such statutory lien until the payment in full of the principal and interest of the bonds secured thereby. Any holder of any of the bonds or any of the coupons representing interest thereon may, either at law or in equity, by suit, action, mandamus, or other proceedings, protect and enforce said statutory lien, and may, by suit, action, mandamus, or other proceedings, enforce and compel performance of all duties of the officials of the commission, including the fixing of sufficient rates, the collection of revenues, the proper segregation of the revenues of the project, and the proper application thereof. *Provided, however*, that said statutory lien shall not be construed to give any such bond or coupon holder authority to compel the sale of such project, or any part thereof.

If there be any default in the payment of the principal of or interest upon any of said bonds, any court having jurisdiction in any proper action may appoint a receiver to administer and operate the project on behalf of the commission with power to fix and charge rates and collect revenues sufficient to provide for the payment of any bonds or other obligations outstanding against such project and for the payment of the expenses of operating and maintaining the same and to apply the income and revenues of said project in con-

formity with this section and the resolution providing for the issuance of such bonds.

C. Should, at any time, the commission consider it necessary or desirable to refinance any bonds issued pursuant to the provisions of this section, then it may avail itself of the authorizations of Chapter 189, Volume 4, Code of Laws of South Carolina, 1942, to enable it to refinance, or to refinance and improve, as contemplated by said Chapter."

SECTION 12: REGULATIONS GOVERNING LAND SUBDIVISIONS - ADOPTION. - Before exercising the powers referred to in sub-section 11, the planning commission shall prepare regulations governing the subdivision of land within its jurisdiction. Such regulations may provide for the proper arrangement of streets, in relation to other existing planned streets and to the master plan, for adequate and convenient open spaces for traffic, utilities, access of fire-fighting apparatus, recreation, light and air, and for the avoidance of congestion of population, including minimum frontage and area of lots.

Such regulations may also include provisions governing the extent to which streets and other ways shall be graded and improved and the extent to which water, sewer and other utility mains, piping, or other facilities shall be installed as a condition precedent to the approval of the plat. The regulations or practice of the commission may provide for a tentative approval of the plat previous to such installation; but any such tentative approval shall be revocable and shall not be entered on the plat. In lieu of the completion of such improvements and utilities prior to the final approval of the plat, the commission may accept a bond with adequate surety to guarantee to the municipality the actual construction and installation of such improvements or utilities at a time and according to specifications fixed by or in accordance with the regulations of the commission. The municipality is hereby granted the power to enforce such bond by all appropriate legal and equitable measures.

Any plat submitted to the commission shall contain the name and address of a person to whom notice of a hearing shall be sent; and no plat shall be acted on by the commission without affording a hearing thereon. Notice shall be sent to the said address by registered mail of the time and place of such hearing not less than five days before the date fixed therefor. Every plat approved by the commission shall be, by virtue of such approval, deemed to be an amendment of or an addition to or a detail of the municipal plan and a part thereof. Approval of a subdivision plat shall not be deemed to constitute an acceptance by the public of any street or other open space shown upon the plat. The planning commission may, from time to time, recommend to the city council amendments of the zoning ordinance or additions thereto to conform to the commission's recommendations for the zoning regulation of the territory within approved subdivisions. The commission shall have the power to agree with the applicant upon use, height, area or bulk requirements or restrictions governing buildings and premises within the subdivision, provided such requirements or restrictions do not authorize the violation of the then effective zoning ordinance of the municipality. Such requirement or restrictions shall be stated upon the plat prior to the approval and recording thereof and shall have the same force of law and be enforceable in the same manner and with the same sanctions and penalties and subject to the power of amendment or repeal as though set out as a part of the zoning ordinance of the municipality.

SECTION 14: PENALTY FOR TRANSFER OF PROPERTY IN LAND SUBDIVISION WITHOUT A PLAT THEREOF APPROVED AND RECORDED - ENFORCEMENT. - Whoever, being the owner or agent of the owner of any land located within a subdivision, transfers or sells or agrees to sell or negotiates to sell any land by reference to or exhibition of or by other use of a

plat of a subdivision, before such plat has been approved by the planning commission and recorded in the office of the county where deeds are required to be recorded, shall forfeit and pay a penalty of one hundred (\$100.00) dollars to the municipality evoking this act, for each lot or parcel so transferred or sold or agreed or negotiated to be sold; and the description of such lot or parcel by metes and bounds in the instrument of transfer or other document used in the process of selling or transferring shall not exempt the transaction from such penalties or from the remedies herein provided. Such municipality may enjoin such transfer or sale or agreement by action for injunction brought in any court of competent jurisdiction and may also recover the said penalty by civil action in any court of competent jurisdiction.

SECTION 15: DUTIES OF RECORDING OFFICIALS - PENALTIES.-In any county where a planning commission has, by proper ordinance, been established by a municipality under the provisions of this section, the county official, whose duty it is to accept and record plats of real estate, shall not accept, file or record any subdivision plat in such office without the approval of the planning commission of such municipality within the area of its jurisdiction under the provisions of this section, and should such public official violate the provisions of this subsection he shall in each instance be subject to the same penalty provided in subsection 14 hereof and the municipality shall have the same rights and remedies as to enforcement or collection as therein provided, and the municipality may enjoin any violations thereof.

SECTION 16: JURISDICTION OF COMMISSION OVER PLATS OF LAND SUBDIVISIONS. - From and after the time when a planning commission shall have control over subdivisions, as provided in this section, the jurisdiction of the planning commission over plats shall be exclusive within the territory under its jurisdiction, and all statutory control over plats or subdivisions of land granted by other statutes shall, in so far as it be in harmony with the provisions of this section be deemed transferred to the planning commission of such municipality.

SECTION 17: BUILDING OR SET-BACK LINES ON STREETS. - Whenever the plan for a major street system has been adopted and properly filed, the city council, upon recommendation of the planning commission is hereby authorized and empowered to

establish, regulate and limit, by ordinance, building or set-back lines on such existing and proposed major streets and to prohibit any new building being located within such building or set-back line within the territorial jurisdiction of the planning commission. The city council shall provide for the method by which this section of the act shall be enforced. The Zoning Board of Adjustment shall have power to modify or vary the set-back regulations in specific cases, in order that unwarranted hardship, which constitutes a complete deprivation of use as distinguished from merely granting a privilege, may be avoided, yet the intended purpose of the regulations shall be strictly observed and the public welfare and public safety protected. *Provided, however,* that no set-back regulations shall be adopted, changed, or amended until a public hearing has been held thereon, after not less than fifteen (15) days' notice of the time and place of such hearing shall have been given by publication in one or more issues of a paper having general circulation in such city.

SECTION 18: INVALIDITY. - If any section, subsection, clause, sentence or phrase of this act is for any reason held to be unconstitutional and invalid, such decision shall not affect the validity of the remaining portions of this act.

SECTION 19: REPEAL. - All acts or parts of acts inconsistent herewith are hereby repealed.

SECTION 20: TIME EFFECTIVE. - This act shall take effect upon its approval by the Governor.

The governing body created under the terms of this act are required to fully cooperate with the permanent roads and bridge commission to the end that through their joint efforts they may effectuate more economically the maintenance and construction of roads in York County. Failure to fully cooperate to this end shall be deemed misfeasance in office and shall constitute grounds for removal from office of members of the governing body created under the provisions of this act, and same shall apply to members of the permanent roads and bridge commission.

SECTION 5: Transfer duties, powers and assets of York County Permanent Roads and Bridges Commission—use of funds.

—All powers, duties and responsibilities of the York County Permanent Roads and Bridges Commission, on and after January 16, 1951, shall be transferred to the York County Supervisor and County Board of Directors. No. 1007

AN ACT To Amend Section 4228, Code Of Laws Of South Carolina, 1942, Relating To The Powers And Duties Of The County Manager And County Advisory Board Of Darlington County, So As To Further Prescribe Their Duties In Purchasing Materials, Supplies And Equipment For Said County.

Be it enacted by the General Assembly of the State of South Carolina:

SECTION 1: § 4228, 1942 Code, amended—bond of manager, Darlington County—purchase of supplies, materials and equipment.—Section 4228, Code of Laws, South Carolina, 1942, is hereby amended by striking out on line 3 of paragraph 2 the word "state" and inserting the word "county" and by inserting after the word "created" and before the word "He" on line 31 the following:

“Provided, that all materials, supplies or equipment, the value of which exceeds one hundred (\$100.00) dollars, purchased directly by the county manager shall conform to requirements previously fixed by the advisory commission with a view, first, to serving satisfactorily the purpose and contemplation and, second, to securing the widest practicable measure of competition consistent with that purpose. The procedure in making purchases or purchase contracts shall be adapted to the circumstances in each case, but in general one of the following plans shall govern:

(a) Awards of purchase contracts shall be made after advertising for at least two weeks and receiving bids. This plan shall be followed wherever the materials, supplies or items of equipment proposed to be purchased are of standard quality and can be described so that all bidders will base their proposals on furnishing articles of identical quality. Advertisements shall consist in publishing in one or more daily newspapers of the state a statement covering the articles to be purchased under appropriate heading and such publication shall preferably appear in Sunday issues of the newspapers selected. In addition to the newspaper advertisement the description notice shall be distributed by mail among all parties known to be interested. Award, if made, shall be made in each case to the lowest responsible bidder whose bid shall have been formally made as required by the advisory commission; provided that in case the bids received indicate the existence of a combine, an understanding or agreement among the bidders for the purpose of fixing the price of the commodity proposed to be purchased, then the advisory commission may, after rejecting all bids, proceed to negotiate purchase contracts with individual firms so as to gain any available advantage for the advisory commission either in price or purchase conditions and to that end may consummate purchase contracts with domestic or foreign persons, firms or corporations.

(b) Wherever the materials, supplies or items of equipment proposed to be purchased are not susceptible of standardization, then the county manager, with the approval of the advisory commission, may establish an eligible list of bidders and/or articles. Under this plan bidding shall be restricted to the eligible list of bidders and/or articles. Advertising and award shall be as required in paragraph (a), provided that differentials established in advance by the county manager and approved by the advisory commission may be recognized in determining the low bid.

(c) In purchasing materials, supplies or items of equipment that are controlled by virtue of patent rights so that competition is impracticable, or where the articles proposed to be purchased are produced and offered for sale by fewer than three reputable firms eligible to offer their products in direct competition and where it is impracticable to substitute other materials, supplies or items of equipment for those proposed to be purchased, purchase negotiations may be undertaken by the county manager informally and purchase awards be made with the approval of the advisory commission as a result of such negotiations, provided that each such award shall be accompanied by a certificate describing in detail the procedure followed, and provided further, that any purchase contract made under this plan shall be awarded only after advertising the intention to award in at least one issue of one daily newspaper published in the state.

(d) Materials, supplies and items of equipment necessarily purchased in order to replace parts of existing equipment and structures owned by the County of Darlington, which can be supplied only by the manufacturer of the original articles to be repaired, or by his authorized dealer or agent, may be purchased without formality, provided that the county manager shall take advantage of every opportunity to economize by securing the best purchase agreements practicable. Advertising in this case shall consist in reporting to the commission monthly a complete record of all such transactions.

(e) In case of emergency, as may be determined by the advisory commission, the county manager may make purchases of materials, supplies and equipment without formalities. All cases of purchases of this kind shall be reported in detail and made public at the next succeeding meeting of the advisory commission", so that said section when so amended shall read as follows:

"Section 4228. Independently of the provisions of subsection 4227 (3), and regardless of whether said section is effective and/or constitutional, the county manager shall have following powers and duties, the county manager shall examine all warrants and vouchers for the disbursement of funds and all orders for the purchase of materials or supplies for the county. No disbursements shall be made, and no liability or contract for purchase or otherwise shall be incurred or made without the certificate of the county manager that he has examined the purchase orders, vouchers or other documents relating to the same, and that funds have been appropriated or other lawful provisions made to meet the disbursements to be made or the

liability so incurred. The county manager shall perform all the duties that are incident to his office, and shall receive such compensation for his services as may be prescribed in the annual appropriation bill.

Before entering upon the discharge of his duties, he shall execute a fidelity bond in the sum of twenty thousand (\$20,000.00) dollars, in favor of the county with a surety company authorized to do business in South Carolina, and the premium on said bonds shall be paid from county ordinary funds. *Provided*, that except school warrants approved by the county superintendent of education, and except as otherwise hereinafter provided, no warrant, for the payment of any salary, purchase, service, or any other obligation of the county shall be issued unless signed or countersigned by the county manager, and no disbursements or county funds of any character whatsoever on the part of the county, or of any department of the county government, or of any officer or employee thereof, shall be made except by county warrant, executed as aforesaid. It is made the duty of the county manager to purchase all goods, office equipment and supplies, wares, merchandise, groceries and other articles which may be needed by the county from time to time, but all such purchases shall be made under such regulations, rules and restrictions as to public advertisement, bidding, opening and acceptance of bids as may be promulgated by the advisory commission to the manager for Darlington County hereinafter created, *provided*, that all materials, supplies or equipment, the value of which exceeds one hundred (\$100.00) dollars, purchased directly by the county manager shall conform to requirements previously fixed by the advisory commission with a view, first, to serving satisfactorily the purpose and contemplation and, second, to securing the widest practicable measure of competition consistent with that purpose. (a) Every rate made, demanded, or received by any telephone utility, or by any two or more telephone utilities jointly, shall be just and reasonable.

(b) Every telephone utility shall provide and maintain facilities and equipment to furnish reasonably adequate and efficient telephone service to its customers in this State.

(c) Under such rules and regulations as the Commission may prescribe, every telephone utility shall file with the Commission, within such time and in such form as the Commission may designate, schedules showing all rates, rules and regulations established by it and collected or enforced, or to be collected or enforced within the jurisdiction of the Commission, and the telephone utility shall keep copies of such schedules open to public inspection under such rules and regulations as the Commission may prescribe.

(d) No telephone utility shall directly or indirectly, by any device whatsoever, or in any way, charge, demand, collect or receive from any person or corporation a greater or less compensation for any service rendered or supplied, or to be rendered or supplied, by such telephone utility, than that prescribed in the schedules of such telephone utility applicable thereto then filed in the manner provided in this Act, nor shall any person or corporation receive or accept any service, from a telephone utility for a compensation greater or less than that prescribed in such schedules.

Nothing herein contained shall prevent any telephone utility from granting free or reduced rate service to its officers, agents, employees, attorneys, physicians or surgeons, nor to prevent any telephone utility from granting free or reduced rate service to the State of South Carolina or any municipality therein or department thereof, or to charitable and eleemosynary institutions and persons engaged in charitable and eleemosynary work nor to prevent any telephone utility from granting free or reduced rate service with the object and for the purpose of providing relief in times and cases of flood, general epidemic, pestilence, or other calamitous visitation, nor any such other instance where the Commission may deem that such service is not contrary to the public interest; provided that such free or reduced rate service shall be granted in accordance with tariffs filed by such telephone utility with the Commission and which shall be subject to regulation and revision by the Commission in the same manner as other rates of telephone utilities. The terms "officers" and "employees" as used in this subsection shall include furloughed, pensioned, and superannuated officers and employees of any such utility.

(e) No telephone utility shall, as to rates, or services, make or grant any unreasonable preference or advantage to any person or corporation or subject any person or corporation to any unreasonable

prejudice or disadvantage. No telephone utility shall establish or maintain any unreasonable difference as to rates or service, either as between localities or as between classes of service. Subject to the approval of the Commission, however, telephone utilities may establish classifications of rates and services, and such classifications may take into account the conditions and circumstances surrounding the service, such as the time when used, the purpose for which used, the demand upon plant facilities, the value of the service rendered, or any other reasonable consideration. The Commission may determine any question arising under this subdivision.

(f) Unless the Commission otherwise orders, no telephone utility shall make any change in any rate now in effect or in any rate duly established under this Act, except after thirty days' notice to the Commission, which notice shall plainly state the changes proposed to be made in the rates then in force, and the time when the changed rate will go into effect, and after a showing of the reasonableness of said rates. The telephone utility shall also give such notice of the proposed changes to other interested parties as the Commission in its discretion may direct. All proposed changes shall be shown by filing new schedules, or shall be plainly indicated upon schedules filed and in force at the time and kept open to public inspection. The Commission, for good cause shown, may allow changes in rates, without requiring the thirty days' notice under such conditions as it may prescribe. Provided, however, that where changes in general schedules of rates and charges are involved, before they may become effective, notice to the public of said proposed changes shall be given by publication thereof once a week for two consecutive weeks in newspapers of general circulation in the territory involved, and a hearing held thereon. All such changes shall be immediately indicated upon its schedules by such telephone utility. The burden shall be upon the telephone utility to show the reasonableness of any such proposed change in rates and charges, and no such change in rates shall become effective until authorized and approved by the Commission except hereinafter provided.

(g) Whenever there is filed with the Commission by any telephone utility any schedule stating a new rate or rates, the Commission may, after notice to the public such as the Commission may prescribe, either upon complaint or upon its own initiative, enter upon a hearing concerning the lawfulness or reasonableness of such rate or rates, and pending such hearing and the decision thereon the Commission, upon filing with such schedule and delivering to the telephone

utility affected thereby a statement in writing of its reasons therefor, may, at any time before they become effective, suspend the operation of such rate or rates, but not for a longer period than ninety (90) days beyond the time when such rate or rates would otherwise go into effect, unless the Commission shall find that a longer time will be required, in which case the Commission may extend the period for not to exceed six months: PROVIDED, and notwithstanding any such order of suspension, the telephone utility may put such suspended rate or rates into effect on the date when it or they would have become effective, if not so suspended, by filing with the Commission a bond in a reasonable amount approved by the Commission, with sureties approved by the Commission, conditioned upon the refund, in a manner to be prescribed by order of the Commission, to the persons or corporations respectively entitled to the amount of excess, if the rate or rates so put into effect are finally determined to be excessive; or there may be substituted for such bond, other arrangements satisfactory to the Commission for the protection of the parties interested. If the telephone utility fails to make refund of any excess received within sixty (60) days after such final determination, any person or corporation entitled to any refund may sue therefor, in any Court of competent jurisdiction and be entitled to recover, in addition to the amount of the refund due, all court costs and reasonable attorneys' fees, but no suit may be maintained for that purpose unless instituted within two (2) years after such final determination. Any number of persons or corporations entitled to any such refund may join as plaintiffs and recover their several claims in a single action, in which action the court shall render a judgment severally for each plaintiff as his or its interest may appear. During any such period of suspension the telephone utility involved shall provide records or other evidence of payments made by its subscribers or patrons under the rate or rates which the telephone utility has put into operation in excess of the rate or rates in effect immediately prior thereto. If, after such hearing, the Commission finds any such rate or rates to be unjust, unreasonable, or unjustly discriminatory, or in any way in violation of law, the Commission shall determine the just and reasonable rate or rates to be charged or applied by the telephone utility for the service in question, and shall fix the same and the date when effective by order to be served upon the telephone utility; and such rate or rates shall be observed from the effective date until changed, as provided by this Act.

(h) Telephone utilities may hereafter contract with each other for the connection of their respective lines or systems and for the interchange through such connections of public telephone and communications service or services, and for other proper purposes. PROVIDED, HOWEVER, that a copy of every such contract shall be filed with the Commission. Such contract shall remain in effect in accordance with its terms unless the Commission, after notice and hearing, shall find that such contract is contrary to the public interest and shall disapprove the same.

(i) When ordered by the Commission after notice to other interested telephone utilities and the public and due hearing any telephone utility may be required to establish, construct, maintain and operate any reasonable extension of its existing facilities. If any such extension, however, by any telephone utility of its existing facilities will interfere with the service or system of any other telephone utility, the Commission may on complaint and after hearing either order the discontinuance of such extension or prescribe such terms and conditions with respect thereto as may be just and reasonable.

(j) No telephone utility shall abandon all or any portion of its service to the public, except for ordinary discontinuance of service for non-payment of lawful charge, or except for violation of rules and regulations approved by the Commission, unless written application is first made to the Commission for the issuance of a certificate authorizing the same, and until the Commission in its discretion issues such certificate.

(k) No telephone utility, without the approval of the Commission after due hearing, and compliance with all other existing requirements of the laws of the State in relation thereto, shall sell, transfer, lease, consolidate or merge its property, powers, franchises or privileges or any of them.

(m) No telephone utility for rate making purposes shall capitalize, nor shall the Commission permit the same to be done, its franchises, rights, powers, privileges, or right to own and operate or enjoy any such franchise, rights, powers, or privileges, in excess of the amount paid to the State or to any political subdivision of the State as the consideration for the grant thereof; or to capitalize any lease, or contract of sale or contract for consolidation or merger of two (2) or more telephone utilities; or issue by way of substitution any capital stock, trust certificates, bonds, notes, or other evidences of indebtedness, or other securities for any consolidated or merged company exceeding the aggregate value of the properties so consolidated or

merged and any additional sum of money actually contributed in cash, and any additional property or labor actually contributed: Provided, that the determination of such consideration or value as aforesaid shall be subject to the approval of the Commission.

(n) The Commission may in its discretion prescribe systems of accounts to be kept by telephone utilities subject to its jurisdiction, and it may prescribe the manner in which the accounts shall be kept, and may require every telephone utility to keep its books, papers, and records accurately and faithfully according to the system of accounts as prescribed by the Commission: Provided, however, That nothing in this subsection shall be construed to be in conflict with or in violation of the provisions of the Communications Act of Congress of 1934, as amended (U. S. C. A. Title 47, Sections 151 through 609); nor shall they be construed to be in conflict with any lawful order of the Federal Communications Commission issued pursuant to the authority invested in it by said Act of Congress.

(o) Every telephone utility shall have the right, and may be so required, to charge annually as an operating expense a reasonable sum for depreciation and credit the same to a reserve account for such purpose, which reserve account shall be charged with plant retirements, but if the reserve thus created shall at any time in the judgment of the Commission be excessive, the Commission after due hearing shall make such order as will result in credits to such reserve thereafter conforming to actual facts and conditions as ascertained by the Commission: Provided, That the Commission shall have the right and power to control or limit such depreciation reserve: Provided, Further, That nothing in this subsection shall be construed to be in conflict with or in violation of the provisions of the Communications Act of Congress of 1934, as amended (U. S. C. A. Title 47, Sections 151 through 609); nor shall they be construed to be in conflict with any lawful order of the Federal Communications Commission issued pursuant to the authority invested in it by said Act of Congress.

(p) When in the judgment of the Commission there is a reasonably substantial affiliation of any telephone utility engaged in business in this State with any other corporation or person, or when in the judgment of the Commission any other corporation or person either exercises, or is in position to exercise, by reason of ownership or control of securities or for any other cause, any reasonably substantial control over the business or policies of any telephone utility engaged in business in this State, the burden of proof shall be upon such telephone utility to establish the reasonableness, fairness, and absence of

injurious effect upon the public interest, of any such fees or charges growing out of any transactions between any telephone utility and such other corporation or person. Every telephone utility is required to produce, if so ordered by the Commission, for the information of the Commission, and the public, all such contracts, papers and documents relating thereto and explanatory thereof as may be required by the Commission, and unless the reasonableness, fairness and absence of injurious effect upon the public interest, of such fees and charges, are established, the same shall not be allowed by it for rate making purposes.

(q) For the purpose of encouraging economy, efficiency, and improvements in methods of service any telephone utility may participate, subject to the approval of the Commission, to such extent as may be permitted by the Commission, in the additional profits arising from any economy, efficiency or improvement in methods or service instituted by such telephone utility.

(r) The Commission may require any telephone utility to file annual reports in such form and of such content as the Commission may require and special reports concerning any matter about which the Commission is authorized to inquire or to keep itself informed, or which it is required to enforce. All reports shall be under oath when required by the Commission.

(s) No telephone utility shall hereafter begin the construction or operation of any telephone utility plant or system, or of any extension thereof, except those ordered by the Commission under the provisions of subdivision (i) of this Section, without first obtaining from the Commission a certificate that public convenience and necessity require or will require such construction or operation: PROVIDED, HOWEVER, That as hereinafter provided this subdivision shall not be construed to require any such telephone utility to secure a certificate for any extension within any municipality or district within which it has heretofore lawfully commenced operations, or for an extension within or to territory already served by it, necessary in the ordinary course of its business, or for an extension into territory contiguous to that already occupied by it as defined by the Commission and not receiving similar service from another telephone utility; but, if any telephone utility in constructing or extending its lines, plant or system unreasonably interferes or is about to unreasonably interfere with the service or system of any other telephone utility, the Commission may make such order and prescribe such terms and conditions in harmony with this Act as are just and reasonable.

(t) Corporations formed to acquire property, or to transact business which would be subject to the provisions of this Act, and corporations possessing franchises, powers or privileges for any of the purposes contemplated by this Act shall be deemed to be subject to the provisions of this Act, although no property may have been acquired, business transacted or franchises, powers or privileges exercised.

(u) Each telephone utility shall have an office in one of the counties of this State in which its property or some part thereof is located, and shall keep in such office all books, accounts, papers and records, as shall reasonably be required by the Commission to be kept within the State. No books, accounts, papers or records required by the Commission to be kept within the State shall be removed at any time from the State except upon such conditions as may be prescribed by the Commission.

(v) Each telephone utility shall obey and comply with each and every requirement of every order, decision, direction, rule or regulation made or prescribed by the Commission in the performance of its duties under this Act, or in relation to any other matter in any way relating to or affecting the business of such telephone utility, and shall do everything necessary or proper in order to secure compliance with and observance of every such order, decision, direction, rule or regulation by all of its officers, agents, and employees.

SECTION 3: Powers and Duties Conferred Upon the Commission.
~~—rates—service—classifications—rules and regulations—valuations—investigations—examinations—reparation for unreasonable, excessive or discriminatory charge—inspection of property—examine personnel—inspect and copy filed records—joint investigations and orders—actions discontinue or prevent violations—hearings—orders—enforcement—personnel—additional.~~ — (a) Whenever the Commission after a hearing, upon its own motion or upon complaint, finds that the existing rates in effect and collected by any telephone utility for any service are unjust, unreasonable, insufficient or unreasonably discriminatory, or in any way in violation of any provision of law, the Commission shall determine the just, reasonable, and sufficient rates to be thereafter observed and in force, and shall fix the same by its order. In determining just, reasonable and sufficient rates the Commission should give due consideration to the telephone utility's property devoted to the public service; the revenues received for the service; the reasonable operating ex-

penses and other costs necessary to provide the service; the total earnings required for the proper discharge of the telephone utility's public duty; the capitalization of the telephone utility and the net income required on its net worth; and such other matters, circumstances and conditions as the Commission may find necessary. *Provided*, that the rates so fixed shall not be higher than necessary to give a fair return to the stockholders.

(b) Whenever the Commission, after hearing had upon its own motion or upon complaint, on reasonable notice, finds that the service of any telephone utility is not reasonably adequate and efficient, the Commission shall make its findings and issue an order thereon requiring such telephone utility to provide reasonable adequate and efficient service.

(c) The Commission may, upon its own motion or upon complaint, ascertain and fix just and reasonable classification, regulations, practices or service to be furnished, imposed, observed and followed by any or all telephone utilities; prescribe reasonable regulations for the examination and testing of such service and for the measurement thereof; establish or approve reasonable rules, regulations, specifications and standards, and provide for the examination and testing of any and all appliances used for the service of any telephone utility.

(d) The Commission may after hearing ascertain and fix the value of the whole or any part of the property of any telephone utility insofar as the same is material to the exercise of the jurisdiction of the Commission.

(e) The Commission may, on its own motion and whenever it may be necessary in the performance of its duties, investigate and examine the condition and operation of telephone utilities or any particular telephone utility. In conducting such investigations the Commission may proceed either with or without a hearing as it may deem best.

(f) When complaint has been made to the Commission concerning any rate or charge for service performed by any telephone utility, and the Commission has found after hearing and investigation that the telephone utility has charged an unreasonable, excessive or discriminatory amount for such service, the Commission may order that the telephone utility make due reparation to the complainant therefor, with interest from the date of collection: PROVIDED, such reparation will not result in establishing unreasonable discrimination and PROVIDED FURTHER, that no order for the payment of reparation upon the ground of unreasonableness shall be made by the Com-

mission in any instance wherein the rate, or charge in question has been authorized by law; and, PROVIDED FURTHER, that no assignment of a reparation claim shall be recognized by the Commission except assignments by operation of law as in case of death, insanity, bankruptcy, receivership or order of Court. If the telephone utility does not comply with the order for the payment of reparation within the time specified in such order, suit may be instituted in any court of competent jurisdiction to recover the same, and upon trial of such suit a duly certified copy of the order of the Commission shall be prima facie evidence of the facts therein set forth. All complaints concerning unreasonable, excessive or discriminatory charges on which reparation orders may be made shall be filed with the Commission within two years from the time the cause of action accrues, and the suit for enforcement of the order shall be commenced in the court within one year from the date of the order of the Commission. The remedy in this subdivision provided shall be cumulative and in addition to any other remedy or remedies in this Act provided in case of failure of a telephone utility to obey an order or decision of the Commission.

(g) The Commission, each Commissioner, and each person employed by the Commission shall have the right after due notice to officers or managers of the company at any and all times to inspect the property, plant and facilities of any telephone utility, and to inspect or audit at reasonable times the accounts, books, papers and documents of any telephone utility, and for the purposes herein mentioned the Commission, each Commissioner, and each person employed by the Commission may during all reasonable hours enter upon any premises occupied by or under the control of any telephone utility. The Commission, each Commissioner, and any employee of the Commission authorized to administer oaths shall have power to examine under oath any officer, agent or employee of such telephone utility in relation to the business and affairs of such telephone utility, but written record of the testimony or statement so given under oath shall be made and filed with the Commission. Any person other than a Commissioner demanding the right to perform any act authorized by this subdivision shall produce written authority from the Commission authenticated by its seal.

(h) In the performance of its duties under this Act the Commission, any Commissioner, or any agent or employee of the Commission with written authority from the Commission authenticated by its seal, is hereby authorized to inspect or make copies of all income,

property, or other tax returns, reports or other information filed by telephone utilities with or otherwise obtained by any other Department, Commission, Board or Agency of the State Government, and all such other Departments, Commissions, Boards or Agencies of the State Government are required to permit the same to be done.

(i) The Commission shall have full power and authority to make joint investigations, hold joint hearings, and issue joint or concurrent order in conjunction or concurrence with any official Board or Commission of any State or of the United States, whether in the holding of such investigations or hearings, or in the making of such orders, the Commission shall function under agreements or compacts between States, or under the concurrent power of the Federal Government or otherwise.

(j) Whenever it shall appear that any telephone utility is failing or omitting, or about to fail or omit, to do anything required of it by law or by order of the Commission, or is doing anything, or about to do anything, or permitting anything, or about to permit anything, to be done contrary to or in violation of law or of any order of the Commission, an action or proceeding shall be prosecuted in any Court of Competent jurisdiction in the name of the Commission or the State for the purpose of having such violation or threatened violation discontinued or prevented, either by mandamus, injunction, or other appropriate relief, and in such action or proceeding it shall be permissible to join such other persons or corporations as parties thereto as may be reasonably necessary to make the order of the Court in all respects effective.

(k) Any investigation, inquiry, or hearing which the Commission has power to undertake or hold may be undertaken or held except matters pertaining to rate changes by or before any one or more of the Commissioners, upon condition, however that such Commissioner or Commissioners shall have been authorized by the Commission to undertake or hold such investigation, inquiry, or hearing, and each investigation, inquiry or hearing, before or by any such Commissioner or Commissioners shall be deemed to be in the investigation, inquiry, and hearing of the Commission. Any determination, ruling, or order of a Commissioner or Commissioners, upon any such investigation, inquiry, or hearing undertaken or held by him or them, shall not become effective until due notice has been given to the Commission and the same has been approved and confirmed by at least a quorum of the Commission and ordered to be filed in its office: PROVIDED, that any such determination, ruling or order involving the fixing or

regulation of general schedule of rates shall not become effective until due notice has been given the telephone utility concerned and an opportunity has been given such utility to be heard before, and the same has been approved and confirmed by, at least a quorum of the Commission. Upon such confirmation and order, such determination, ruling, or order shall be the determination, ruling or order of the Commission. In any investigation, inquiry, or hearing now pending, or which may hereafter be instituted, the Commission is hereby authorized to employ a special agent or examiner, who shall have power to administer oaths, examine witnesses, and receive evidence in any locality which the Commission, having regard to the public convenience and the proper discharge of its functions and duties, may designate. The testimony and evidence so taken or received shall have the same force and effect as if taken or received by the Commission, or any one or more of the Commissioners as above provided. PROVIDED, FURTHER, HOWEVER, that in any hearing involving rates of any telephone utility each hearing will be held before a majority of the full Commission.

(l) The Commission may make such rules and regulations not inconsistent with law as may be proper in the exercise of its powers or for the performance of its duties under this Act, all of which shall have the force of law.

(m) In addition to the foregoing expressly enumerated powers the Commission shall have full power and authority, and it shall be its duty to enforce, execute, administer, and carry out by its order, ruling, regulation, or otherwise, all the provisions of this Act relating to the powers, duties, limitations, and restrictions imposed upon telephone utilities by this Act or any other provisions of the law of this State regulating telephone utilities.

(n) The Commission shall have power to employ such technical, administrative and clerical staff as it may deem necessary to carry out the provisions of this Act and to perform the duties and exercise the powers conferred upon it by law in relation to telephone utilities.

(o) The enumeration of the powers of the Commission as herein set forth shall not be construed to exclude the exercise of any power which the Commission would otherwise have under the provisions of law.

(p) Nothing contained in this Act shall be construed to divert the Commission of any power now possessed by it to regulate telephone utilities, and the duties and powers hereby devolved upon the Commission are in addition to those now imposed by law.

SECTION 4: PROCEDURE.—hearings — provisions govern — processes—examine witnesses—contempt—deposition—testimony—evidence—perjury—witnesses—production of records—complaints—service of processes—time and place of hearing—hear parties—orders—records—rehearing—rules of pleading, practice and procedure.—

(a) The Commission may, in addition to the hearings specifically provided for by this Act, conduct such other hearings as may be required in the administration of the powers and duties conferred upon it by this Act and by other Acts relating to telephone utilities.

(b) All hearings, investigations and proceedings shall be governed by law and by rules of practice and procedure adopted, or to be adopted by the Commission.

(c) The Commission and each Commissioner may issue subpoenas, subpoenas duces tecum, and all other necessary processes in proceedings pending before it, and such processes shall extend to all parts of the State and may be served by any person authorized by law to serve processes.

(d) The Commission and each of the Commissioners, for the purposes mentioned in this Act, may administer oaths, examine witnesses and certify official acts. In case of failure on the part of any person or persons to comply with any lawful order of the Commission, or of any Commissioner, or with any subpoena or subpoenas duces tecum, or in the case of the refusal of any witness to testify concerning any matter on which he may be interrogated lawfully, any court of record of general jurisdiction, or a judge thereof, may on application of the Commission or of a Commissioner compel obedience by proceedings for contempt as in the case of disobedience of the requirements of a subpoena issued from such court of a refusal to testify therein.

(e) The Commission or any Commissioner or any party to the proceedings may, in any investigation or hearing before the Commission, cause the deposition of witnesses residing within or without the State to be taken in the manner prescribed by law for taking deposition in civil actions in the courts of this State.

(f) No person shall be excused from testifying or from producing any book, document, paper or account in any investigation, or inquiry by, or hearing before the Commission, or any Commissioner, when ordered to do so, upon the ground that the testimony or evidence, book, document, paper, or account, required of him may tend to incriminate him or subject him to penalty of forfeiture; but no

person shall be prosecuted, punished or subjected to any forfeiture or penalty for or on account of any act, transaction, matter or thing concerning which he shall have been compelled under oath to testify or produce documentary evidence: PROVIDED, That no person so testifying shall be exempt from prosecution or punishment for any perjury committed by him in his testimony.

(g) Copies of official documents and orders filed or deposited according to law in the office of the Commission, certified by a Commissioner or by the Secretary of the Commission under its official seal to be true copies of the original, shall be evidence in like manner as the originals in all matters before the Commission and in the courts of this State. The Commission by rule may prescribe reasonable charges to be paid for furnishing authenticated copies of such documents and orders.

(h) Witnesses who are summoned before the Commission, a special agent, or an examiner, shall be paid by the party or parties at whose instance they are summoned the same fees and mileages as are paid to witnesses in the Court of Common Pleas of this State, and witnesses whose depositions are taken pursuant to the provisions of this Act, and the officer taking the same shall be entitled to be paid by the party or parties at whose instance the deposition is taken the same fees as are paid for like services in the Courts of Common Pleas of this State.

(i) The Commission may require, by order served on any telephone utility in the manner provided in subdivision (k) of this Section, the production within this State at such time and place as it may designate, of any books, accounts, papers or records of the telephone utility relating to its business or affairs within the State, pertinent to any lawful inquiry and kept by said telephone utility in any office or place within or without this State or at its option, verified copies in lieu thereof, so that an examination thereof may be made by the Commission or under its direction.

(j) The Commission on its own motion, or any person or corporation having an interest in the subject matter, including any telephone utility concerned, may complain in writing setting forth any act or thing done or omitted to be done by any telephone utility in violation, or claimed violation, of any law which the Commission has jurisdiction to administer, or of any order or rule of the Commission.

(k) Upon filing of a complaint, the Commission shall cause a copy thereof to be served upon the person, corporation or telephone utility complained of. Service of all complaints or notices in all hearings,

investigations and proceedings pending before the Commission, except service of the processes provided for by subdivision (c) of this Section, may be made personally or by mail as the Commission may direct.

(l) The Commission shall fix the time and place of all hearings, if any is required, and shall serve notice thereof, not less than twenty days before the time set for such hearing, unless the Commission shall find that public necessity requires that such hearing be held at an earlier date, in which event the notice shall be reasonable in view of all the circumstances. The Commission may dismiss any complaint without a hearing if in its opinion a hearing is not necessary in the public interest or for the protection of substantial rights.

(m) At the time fixed for any hearing before the Commission or a Commissioner, or the time to which the same may have been continued, the complainant and the person, corporation or telephone utility complained of shall be entitled in person or by attorney to be heard and to introduce evidence.

(n) After the conclusion of a hearing, the Commission shall make and file its findings and order with its opinion, if any. Its findings shall be in sufficient detail to enable the court on review to determine the controverted question presented by the proceeding and whether proper weight was given to the evidence. A copy of such order, certified under the seal of the Commission, shall be served either personally or by registered mail upon the person, corporation or telephone utility against whom it runs, or his or its attorney, and notice thereof shall be given either personally or by mail to the other parties to the proceedings or their attorneys. The order shall take effect and become operative twenty days after the service thereof, unless otherwise provided, and shall continue in force either for a period which may be designated therein or until changed or revoked by the Commission. If an order cannot, in the judgment of the Commission, be complied with within twenty days, the Commission may grant and prescribe such additional time as in its judgment is reasonably necessary to comply with the order, and may, on application and for good cause shown, extend the time for compliance fixed in its order.

(o) The Commission may at any time, except in those cases provided for in subdivision (q), after notice and after opportunity to be heard as provided in the case of compliance, rescind, or amend, any order or decision made by it. Any order rescinding or amending a prior order or decision, after notice thereof, either personal or by

mail, is given to the telephone utility affected and to the other parties to the proceedings, shall have the same effect as is herein provided for original orders or decisions, but no such order shall affect the legality or validity of any acts done pursuant to the original order before service of notice of such change.

(p) A full and complete record shall be kept of all proceedings had before the Commission or any Commissioner on any formal hearing, and all testimony shall be taken down by a reporter appointed by the Commission.

(q) After an order or decision has been made by the Commission, any party to the proceedings may within ten days after service of notice of the entry of the order or decision apply for a rehearing in respect to any matter determined in such proceedings and specified in the application for rehearing, and the Commission shall have power, in case it appears to it to be proper, to grant and hold such rehearing. The Commission shall either grant or refuse an application for rehearing within twenty days, and a failure by the Commission to act upon such application within that period shall be deemed a refusal thereof. If the application be granted, the Commission's order shall be deemed vacated, and the Commission shall enter a new order after the rehearing has been concluded.

(r) The Commission is authorized to prescribe rules governing pleadings, practice, and procedure before it not inconsistent with the provisions of this Act or any other provisions of law.

SECTION 5: Review of Orders of the Commission.—**action vacate order—stay operation of order—record—appeal—priority of hearing—burden of proof.—**

(a) Any party in interest being dissatisfied with an order of the Commission may commence an action in the Court of Common Pleas for Richland County against the Commission and other interested parties as defendants to vacate or set aside, either in whole or in part, any such order on the ground that the order is unlawful or unreasonable, but no cause of action shall accrue to vacate or set aside, either in whole or in part, any order of the Commission, except an order on a rehearing, unless a petition to the Commission for a rehearing has been filed and refused, or deemed refused because of the Commission's failure to act thereon within twenty days. Any action brought hereunder must be commenced within thirty days from the date of service of notice of the order of the Commission on a rehearing, or of its refusal of a petition for rehearing, either by order or failure to

act thereon within twenty days. For purposes of jurisdiction the residence of the Commission shall be deemed to be in Richland County. Orders of the Commission may be reviewed by the Court of Common Pleas upon questions of both law and fact. Such orders shall be deemed *prima facie* just and reasonable, and the burden shall be upon the party attacking such orders to show that the same are unjust and unreasonable.

(b) The pendency of proceedings to review shall not of itself stay or suspend the operation of the order of the Commission, but during the pendency of such proceedings the Court, upon reasonable notice and after hearing in its discretion may stay or suspend, either in whole or in part, the operation of the Commission's order on such terms as it deems just, and in accordance with the practice of the Court. Any party shall have the right to secure from the Court in which the review of the order of the Commission is in good faith sought, an order suspending or staying the operation of the order of the Commission, pending a review of such order, by adequately securing all persons or corporations who will be affected by such suspension or stay against loss due to the delay in the enforcement of the order, in case the order under review is affirmed, the security to be approved and to be in such form and amount as shall be directed by the Court granting the stay or suspension. In any proceedings to review any order or decision of the Commission, a transcript of the testimony taken, together with all exhibits, or copies thereof introduced, and of the pleadings, records, proceedings and orders (which shall be accompanied by any opinion or memorandum of the Commission concerning the same) in the case, shall constitute the record on the review and no new or additional evidence shall be introduced in the Court of Common Pleas. Any party to such action in the Court of Common Pleas shall have the right to appeal to the Supreme Court in accordance with existing law and procedure in such cases. Pending final determination of any such appeal to the Supreme Court, the order of the Court of Common Pleas suspending or staying the operation of the order of the Commission shall continue in force and effect under the conditions prescribed in said order, and no additional bond or undertaking shall be required, but any party shall have the right to apply to the Supreme Court for an order increasing or otherwise modifying the amount of such bond.

(c) All actions and proceedings for review under this Act, and all actions or proceedings to which the Commission or the State of

South Carolina, or any of its governmental agencies, may be parties, and in which any question arises under this Act, or under or concerning any order or decision of the Commission thereunder, shall be given priority of hearing in all courts over all other civil causes except election cases irrespective of position on the calendar.

(d) In all actions and proceedings arising under this Act or growing out of the exercises of the powers herein granted to the Commission, the burden of proof shall be on the party attacking any order of the Commission to show that the same is unlawful or unreasonable.

SECTION 6: Penalties for violation.—~~act or omission of employee—continuing violation—cumulative—sue in name of the State.—~~

(a) Any person or corporation violating any provision of this Act, or failing, omitting, or neglecting to obey, observe or comply with any lawful order of the Commission, or any part or provision thereof, may be subject to a penalty of not less than Twenty-five Dollars nor more than Five Hundred Dollars for each offense and reasonable expenses including attorney's fees.

(b) In constructing and enforcing the provisions of this Act relating to penalties, the act, omission or failure of any officer, agent or employee, of any corporation or person acting within the scope of his official duties or employment, shall in every case be deemed to be also the act, omission or failure of such corporation or person.

(c) Every violation of the provisions of this Act or of any lawful order of the Commission, or any part thereof, by any corporation or person is a separate and distinct offense, and in case of a continuing violation each day's continuance thereof shall be deemed to be a separate and distinct offense.

(d) All penalties accruing under this Act shall be cumulative, and a suit for the recovery of one penalty shall not be a bar to or affect the recovery of any other penalty or forfeiture or be a bar to any criminal prosecution against any telephone utility or any officer, director, agent or employee thereof, or any other corporation or person.

(e) Actions to recover penalties under this Act shall be brought in the name of the State of South Carolina in any Court of competent jurisdiction.

SECTION 7: General provisions.—~~municipal constitutional powers—municipal police regulations—interstate commerce—invalidity.—~~

(a) Nothing contained in this Act shall be so construed as to modify, abridge, or impair any of the rights or powers granted to cities and towns under the provisions of Article VIII, Section 4, or any other provisions of the Constitution of this State and every right, power or privilege conferred upon any city or town by the Constitution of this State, otherwise appearing to be modified, abridged or impaired by any provision of this Act, is to be deemed expected from the operation thereof.

(b) Nothing contained in this Act shall be so construed as to limit or restrict the right of cities and towns to adopt and enforce reasonable police regulations and ordinances affecting telephone utilities, not inconsistent with the provisions of this Act, in the interest of public safety morals, convenience, health and good order.

(c) Neither this Act nor any provision thereof shall apply or be construed to apply to commerce among the several States of the United States, except insofar as the same may be permitted under the provisions of the Constitution of the United States and the Acts of Congress.

(d) If any part of this Act is decided to be unconstitutional and void, such decision shall not affect the validity of the remaining parts of this Act, unless the part held void is indispensable to the operation of the remaining parts. The General Assembly hereby declares that it would have passed those parts of this Act which are valid and omitted any part which may be unconstitutional, if it had been advised of such unconstitutionality at the time of the passage of this Act.

SECTION 9: Extent of Repeal.—Sumter.—

All Acts or parts of Acts inconsistent with this Act are hereby repealed, but all statutes of this State, as well as all parts thereof, insofar as they may relate to public utilities, other than telephone utilities and the regulation thereof, are not repealed, modified or impaired in any way by this Act. All powers granted under the provisions of this Act to the Public Service Commission shall be vested in and exercised by the City Council of the City of Sumter with respect to telephone companies operating in the limits of the City of Sumter under franchise granted by the City of Sumter.

SECTION 10: Time effective.—This Act shall take effect upon its approval by the Governor.

Approved the 16th day of June, 1950.

Provided, Further, that the State Board of Education shall issue rules and regulations with reference to requirements of colleges from which teachers have received degrees, and no degree from any college failing to meet such requirements shall be considered by said Board in fixing a salary hereunder.

Provided, Further, That any new or revised regulations made by the State Board of Education, which would have the effect of increasing the amount required for teachers' salaries for the year 1950-51, shall not become effective until the school year 1951-52.

Provided, Further, That the number of teachers qualifying for State Aid in 1950-51 shall be determined on the basis of enrollment and average daily attendance of either the year 1949-50 or 1950-51.

Provided, Further, that for the fiscal year 1950-51, Central School of Lee County shall be considered as qualifying for the number of teachers employed for the fiscal year 1949-50.

Provided, Further, that so much as may be necessary of the appropriation for payment of teachers' salaries, provided in Item 2 of this section, may be used to correct erroneous salary payments of prior years, which were due to improper classification or other justifiable causes.

Provided, Further, That the attendance teachers provided for in Item 2 of this section shall perform any other duties which may be imposed upon them by the County Boards of Education, provided same does not conflict with their statutory duties. *Provided, further*,

that in the larger counties where the State payment is more than that fixed for the salary and expenses of the attendance teacher, the county board of education may increase the expense allowance of such teachers if advisable. *Provided, Further*, that every attendance teacher of the State shall file at the end of each month with the County Superintendent of Education of the county she serves, a report of all cases handled by her during said month, along with a report on each individual case, stating what disposition was made of the case, whether or not the non-attending pupil has been returned to school, and, if not, the reason for such pupil's continued absence from the school room. *Provided, Further*, that the salaries of Attendance Teachers shall be \$1,980.00 each per year.

Provided, Further, That the State Department of Education shall require penmanship to be taught in all elementary grades in the schools of South Carolina.

Provided, Further, That the amount appropriated herein for transportation shall be disbursed monthly to the various County Boards of Education of the State so as to remit to each a sum equivalent to the total cost of school transportation in each county for the fiscal year 1945-46 as reported by the County Superintendents of Education to the State Superintendent of Education. *Provided, Further*, That in determining the cost of transportation in each county for the school year 1945-46, no expenditures for the purchase of equipment or payments on indebtedness incurred on account of the purchase of equipment in prior years shall be considered, but each county shall receive, as a depreciation allowance, an amount equal to twenty (20) per cent of the total original cost price of district or county owned buses operated in 1946-47. *Provided, Further*, That no county shall receive more than the cost of school transportation including depreciation allowance in said county for the current fiscal year, and any such excess paid shall be returned to the State Treasurer at the end of the fiscal year.

Provided, Further, That the amount appropriated herein under Item 2 for County School Lunch Supervisors shall be used for the payment of salaries of one supervisor for each county at the rate of Nineteen Hundred and Eighty (\$1,980.00) Dollars each.

Provided, Further, That the amount appropriated herein under Item 2 for Aid to Counties in the School Lunch program shall be divided among the County Boards of Education of the State upon the basis of the number of schools participating in the School Lunch Program in each county in the school year 1949-1950. *Provided*,

Further, that travel expense of County School Lunch Supervisors shall be paid out of this appropriation at the prevailing rate of mileage allowed by the State. A report of the number of miles traveled on official business shall be submitted monthly to the County Board of Education for approval, and a warrant of the Board shall be issued to the supervisor in payment thereof. *Provided, Further*, that all expenditures of this appropriation by each of the County Boards of Education shall be made upon the joint recommendation of the County Superintendent of Education and the School Lunch Supervisor. Each County Superintendent shall, at the close of the fiscal year, submit to the State Superintendent of Education an itemized statement which shall indicate the disposition made of his county's share of this appropriation and any balance brought forward from the preceding year. Such records of the County Boards of Education shall be kept available for auditing by the accounting personnel of the State Superintendent of Education's office.

Provided, Further, That as far as consistent with sound financial administration, no pupil shall be refused lunch because of inability to pay for same, when such inability is properly determined.

Each County shall receive 10¢ per capita, based on the latest official population estimate by the Federal Bureau of the Census or proportionately thereto.

Provided, Further, That funds granted by the Federal Government available for distribution in financial support of County Health Departments shall be allocated so that each County Health Department will receive a Federal fund total determined as follows:

1. One-half of each Federal fund granted for a specialized program shall be distributed according to the proportionate existence of the public health problem involved as determined on an equitable basis by the State Board of Health according to reliable statistics as follows:

(a) Maternal and Child Health: In proportion to the total number of births and stillbirths to mothers resident in each county for the most recent period of twelve months for which statistics are available.

2. One-half of each Federal special fund together with all Federal funds available for general public health services shall be distributed among the counties as follows:

(a) One-half shall be divided equally among the counties, as a flat grant.

4. To fit funds available to amounts budgeted when small differences occur.

3. Each County Health Department shall be allotted a total of Federal funds in its budget as determined above. However, in order to avoid splitting salary and travel items, the State Health Officer is authorized to vary the amounts budgeted from each Federal fund provided that the total of Federal funds included in each County Health Department budget be not less than the total determined by

this formula. *Provided*, The funds herein provided under these formulae for the distribution of State and Federal funds shall only be used to pay salaries and/or travel of personnel employed or assigned in the County Health Departments.

All other funds to be expended are to be drawn on properly approved disbursement vouchers, for other than personal services. *Provided, Further*, That the funds herein made available are to be used by the State Board of Health for payment of all necessary supplies, equipment items, and other contractual services as may be deemed necessary for the carrying out of this program.

Provided, Further, That where a county voluntarily pays the salary and expense of a veterinarian for the purpose of health and sanitation measures in connection with meat packing and processing plants being located in the county, and such veterinarian is approved by the State Veterinarian, then the State Health Officer shall prescribe rules and regulations for the inspection of such plants, and any such plants meeting such requirements of health and sanitation as may be prescribed shall be authorized to stamp or mark goods processed or packaged "State inspected" and "State approved" or other appropriate language.
